

EDF Energy's Energy Discount Plan Version 4 tariff – Domestic Energy Prices (for Prepayment customers)

- Electricity prices are shown in the top table. To find your prices, look in the left hand column which shows your area. Once you've found your area, look along the top to see which meter applies to you (Standard or Economy 7).
- This tariff is only available for electricity prepayment customers. Prepayment gas accounts which are signed up as part of a Dual Fuel contract will be placed onto our Standard tariff. Where a customer has a prepayment meter for electricity and a credit meter for gas, the customer can benefit from this discounted tariff on both fuels.
- Energy Discount Plan Version 4 tariff rates are shown including and excluding VAT, as well as split by the different bands. The bands are explained in more detail in the notes section opposite.
