Notes:

- An electricity Customer paying by monthly Direct Debit will receive a 6% discount off their energy charges, and is credited to their electricity bill quarterly. This discount is calculated prior to any other discounts and VAT being applied.
- A gas Customer paying by monthly Direct Debit will receive a 6% discount off their energy charges, and is credited to their gas bill quarterly. This discount is calculated prior to any other discounts and VAT being applied.
- A Dual Fuel Customer will receive a Dual Fuel discount of £8.40 (£8.00 excluding VAT) per annum, irrespective of their payment method. This is calculated daily and is credited to their gas bill/card quarterly.
Gas card customers are advised to regularly charge their cards to ensure they receive this discount.
- The gas charges stated on this leaflet will vary if your premises are not directly connected to the pipelines of the gas distribution networks of National Grid Gas, Scotia Gas Networks (Scotland Gas Networks and Southern Gas Networks), Northern Gas Networks and Wales & West Utilities. In these circumstances, your gas bill will be subject to an additional charge of 11.50p per day (inc VAT). For further information contact 0800 096 9000[†].

If you are an existing Economy 9, White Meter, Off-Peak or Heating Tariff customer and need more information, please call us free on 0800 096 9696[†].

Green Tariff
If you switch to our Green Tariff, we guarantee to source a supply of electricity – equal to your annual consumption – from environmentally friendly renewable sources. All we ask is that you pay a small premium for the Green Tariff – just 0.40p (exc VAT) extra for each kWh of electricity you use. For every penny you pay into the fund, EDF Energy will match it. This premium is not used directly to purchase from renewable sources but is instead placed in a fund where it will be invested in new, renewable electricity sources.

[^]These products are not compatible with our Green Tariff. If you are on one of these products and are interested in joining a Green Tariff please call us on 0800 096 9000[†].

Climate Balance Tariff
Participation in our Climate Balance scheme is strictly subject to you switching to our Climate Balance Tariff and agreeing to our Climate Balance qualifying conditions (copies of which are available on request by contacting 0800 096 9000[†]). The Climate Balance Tariff unit rate is slightly higher than our standard rates - 0.41p per kWh (exc VAT) extra for electricity and 0.155p per kWh (exc VAT) extra for gas. These additional amounts will be paid into a Climate Balance fund. CO₂ emissions will be balanced on an aggregate basis for all Climate Balance customers through projects funded by this central fund. EDF Energy will invest in projects designed to balance the CO₂ emissions associated with each kWh of gas and electricity supplied to Climate Balance customers based on the following conversion factors:- 0.540kg per kWh of electricity supplied and 0.206kg per kWh of gas supplied. The required level of CO₂ reductions will be achieved over the lifetime of these projects, which may differ from project to project.

[†]These products are not compatible with our Climate Balance Tariff. If you are on one of these products and are interested in joining our Climate Balance Tariff please call us on 0800 096 9000[†] to discuss alternatives.

***Electricity Standard**
Where applicable, the Band A rate will apply to a block of 900 kWh each year. This will be applied on a pro rata basis for each day covered by the relevant bill and rounded to the nearest whole kWh e.g. for an electricity bill covering 90 days the first 247 kWh used in that billing period will be charged at the Band A rate, all other kWh will be charged at the Band B rate.
Night kWh will be supplied for a total of 7 hours between 10pm and 8am (actual times set by the local network operator) and these will be charged off the Night kWh rate[†].

****Economy 7**
Where applicable, the Band A day rate will apply to a block of 1000 kWh each year. This will be applied on a pro rata basis for each day covered by the relevant bill and rounded to the nearest whole kWh. e.g. for an electricity bill covering 90 days the first 247 kWh used in that billing period will be charged at the Band A day rate, all other day kWh will be charged at the Band B day rate. Night kWh will be supplied for a total of 7 hours between 10pm and 8am (actual times set by the local network operator) and these will be charged off the Night kWh rate[†].

*****Economy 10**
Where applicable, the Band A rate will apply to a block of 1000 kWh each year. This will be applied on a pro rata basis for each day covered by the relevant bill and rounded to the nearest whole kWh e.g. for an electricity bill covering 90 days the first 247 kWh used in that billing period will be charged at the Band A rate, all other kWh will be charged at the Band B rate. Economy kWh hours will be supplied for a total of 3 hours between 12pm and 4pm and for 7 hours between 7pm and 5am (actual times set by the local network operator. All times are GMT) and are charged off the Economy kWh rate[†].

[†]The Economy 10 tariff is currently not available to new customer acquisitions. For further details on tariff information, please call us free on 0800 096 9000[†].

******Eco20:20**
Where applicable, the Band A rate will apply to a block of 900 kWh each year. This will be applied on a pro rata basis for each day covered by the relevant bill and rounded to the nearest whole kWh. e.g. for an electricity bill covering 90 days the first 222 kWh used in that billing period will be charged at the Band A peak rate, all other peak kWh will be charged at the Band B rate. Eco20:20 off peak rate will apply for a total of 10 hours between 9pm and 7am Monday to Friday and all weekend from 9pm Friday until 7am Monday, (all times are GMT). Eco20:20 tariff is set to GMT times, this means when the clocks change to British Summer Time your off-peak times will be 10pm until 8am on weekdays.

†Gas
Where applicable, the Band A rate will apply to a block of 2680 kWh p/a. This will be applied on a pro rata basis for each day covered by the relevant bill and rounded to the nearest whole kWh e.g. for a bill covering 90 days the first 661 kWh used in that billing period would be charged at the Band A rate all other day kWh will be charged at the Band B rate[†].

[†]Where there are any changes to our prices or tariff structures during a billing period, charges will be pro rated for the number of days up to the price and/or tariff structure change date. The new charges and/or tariff structures will apply pro rata for the remaining bill period. In order to apply these charging principles, estimated data may be used in accordance with clauses 5 of your terms.

^{††}The Band A rate will apply to the first 7.34 kWh per day, all other kWh for that day will be charged at the Band B rate.

- If you are a prepayment customer and you lose or damage your key/card you maybe charged £7 for a replacement.
- An Electricity Bill Saver discount is applicable to customers in the Seeboard, SWEB and London regions with no mains gas supply and an active electricity account. The amount of £8.40 (including VAT) per year will be paid at the amount of £2.10 (including VAT) per quarter, for customers supplied by EDF Energy – either as a credit to electricity quarterly bills or via a credit to the customers Powerkey. Powerkey customers are advised to regularly charge their keys to ensure they receive this discount.
- Fixed daily charges (where shown) are payable whether or not any gas and/or electricity is consumed at your premises.
- The charges stated on this tariff sheet are dependant upon the suitability of the existing metering at your premises.
- The charges stated in this leaflet are only available for the supply of gas and electricity to continuously occupied premises used exclusively or mainly for domestic purposes within the areas defined above.
- The Dual Fuel and Direct Debit discounts are only applicable to tariffs within this leaflet and are subject to you having a concurrent supply of gas and electricity under an EDF Energy Domestic Supply Contract. You will not receive the discount for any period where there is no such concurrent supply (e.g where supply of one fuel has not commenced or the supply of one fuel ends but the supply of the other fuel continues).
- All prices are correct at time of publication (26 March 2010) although are subject to change. For further details on tariff information please call us free on 0800 096 9000[†].
- Prices are applicable from 26 March 2010. Customers with key or smart card meters will need to charge their keys/smart cards with credit at an appropriate outlet on or after the 26 March 2010 and subsequently load credit onto their meter in order for these new prices to start to take effect. Customers with prepayment token meters will need to ensure their meter is correctly re-configured for these new prices to take effect. Please contact EDF Energy on 0800 096 9000[†] if your meter has not yet been re-set with these new prices.

For further details on tariff information please call us free on 0800 096 9000[†].

[†]Calls may be monitored and recorded as part of our customer care programme. Calls to '0800' numbers are free from BT landlines, other network operators' charges may vary.

Notes:

- An electricity Customer paying by monthly Direct Debit will receive a 6% discount off their energy charges, and is credited to their electricity bill quarterly. This discount is calculated prior to any other discounts and VAT being applied.
- A gas Customer paying by monthly Direct Debit will receive a 6% discount off their energy charges, and is credited to their gas bill quarterly. This discount is calculated prior to any other discounts and VAT being applied.
- A Dual Fuel Customer will receive a Dual Fuel discount of £8.40 (£8.00 excluding VAT) per annum, irrespective of their payment method. This is calculated daily and is credited to their gas bill/card quarterly.
Gas card customers are advised to regularly charge their cards to ensure they receive this discount.
- The gas charges stated on this leaflet will vary if your premises are not directly connected to the pipelines of the gas distribution networks of National Grid Gas, Scotia Gas Networks (Scotland Gas Networks and Southern Gas Networks), Northern Gas Networks and Wales & West Utilities. In these circumstances, your gas bill will be subject to an additional charge of 11.50p per day (inc VAT). For further information contact 0800 096 9000†.

Green Tariff

If you switch to our Green Tariff, we guarantee to source a supply of electricity – equal to your annual consumption – from environmentally friendly renewable sources. All we ask is that you pay a small premium for the Green Tariff – just 0.42p (inc VAT) extra for each kWh of electricity you use. For every penny you pay into the fund, EDF Energy will match it. This premium is not used directly to purchase from renewable sources but is instead placed in a fund where it will be invested in new, renewable electricity sources.

^These products are not compatible with our Green Tariff. If you are on one of these products and are interested in joining a Green Tariff please call us on 0800 096 9000†.

Climate Balance Tariff

Participation in our Climate Balance scheme is strictly subject to you switching to our Climate Balance Tariff and agreeing to our Climate Balance qualifying conditions (copies of which are available on request by contacting 0800 096 9000)†. The Climate Balance Tariff unit rate is slightly higher than our standard rates - 0.43p per kWh (inc VAT) extra for electricity and 0.163p per kWh (inc VAT) extra for gas. These additional amounts will be paid into a Climate Balance fund. CO2 emissions will be balanced on an aggregate basis for all Climate Balance customers through projects funded by this central fund. EDF Energy will invest in projects designed to balance the CO2 emissions associated with each kWh of gas and electricity supplied to Climate Balance customers based on the following conversion factors:- 0.540kg per kWh of electricity supplied and 0.206kg per kWh of gas supplied. The required level of CO2 reductions will be achieved over the lifetime of these projects, which may differ from project to project.

†These products are not compatible with our Climate Balance Tariff. If you are on one of these products and are interested in joining our Climate Balance Tariff please call us on 0800 096 9000† to discuss alternatives.

***Electricity Standard**

Where applicable, the Band A rate will apply to a block of 900 kWh each year. This will be applied on a pro rata basis for each day covered by the relevant bill and rounded to the nearest whole kWh e.g. for an electricity bill covering 90 days the first 222 kWh used in that billing period would be charged at the Band A rate all other day kWh will be charged at the Band B rate†.

****Economy 7**

Where applicable, the Band A day rate will apply to a block of 1000 kWh each year. This will be applied on a pro rata basis for each day covered by the relevant bill and rounded to the nearest whole kWh. e.g. for an electricity bill covering 90 days the first 247 kWh used in that billing period will be charged at the Band A day rate, all other day kWh will be charged at the Band B day rate. Night kWh will be supplied for a total of 7 hours between 10pm and 8am (actual times set by the local network operator) and these will be charged off the Night kWh rate†.

*****Economy 10**

Where applicable, the Band A rate will apply to a block of 1000 kWh each year. This will be applied on a pro rata basis for each day covered by the relevant bill and rounded to the nearest whole kWh e.g. for an electricity bill covering 90 days the first 247 kWh used in that billing period will be charged at the Band A rate, all other kWh will be charged at the Band B rate. Economy kWh hours will be supplied for a total of 3 hours between 12pm and 4pm and for 7 hours between 7pm and 5am (actual times set by the local network operator. All times are GMT) and are charged off the Economy kWh rate†.

†The Economy 10 tariff is currently not available to new customer acquisitions. For further details on tariff information, please call us free on 0800 096 9000†.

******Eco20:20**

Where applicable, the Band A rate will apply to a block of 900 kWh each year. This will be applied on a pro rata basis for each day covered by the relevant bill and rounded to the nearest whole kWh, e.g. for an electricity bill covering 90 days the first 222 kWh used in that billing period will be charged at the Band A peak rate, all other peak kWh will be charged at the Band B rate. Eco20:20 off peak rate will apply for a total of 10 hours between 9pm and 7am Monday to Friday and all weekend from 9pm Friday until 7am Monday, (all times are GMT). Eco20:20 tariff is set to GMT times, this means when the clocks change to British Summer Time your off-peak times will be 10pm until 8am on weekdays.

†Gas

Where applicable, the Band A rate will apply to a block of 2680 kWh p/a. This will be applied on a pro rata basis for each day covered by the relevant bill and rounded to the nearest whole kWh e.g. for a bill covering 90 days the first 661 kWh used in that billing period would be charged at the Band A rate all other day kWh will be charged at the Band B rate†.

^Where there are any changes to our prices or tariff structures during a billing period, charges will be pro rated for the number of days up to the price and/or tariff structure change date. The new charges and/or tariff structures will apply pro rata for the remaining bill period. In order to apply these charging principles, estimated data may be used in accordance with clauses 5 of your terms.

††The Band A rate will apply to the first 7.34 kWh per day, all other kWh for that day will be charged at the Band B rate.

• If you are a prepayment customer and you lose or damage your key/card you maybe charged £7 for a replacement.

• An Electricity Bill Saver discount is applicable to customers in the Seeboard, SWEB and London regions with no mains gas supply and an active electricity account. The amount of £8.40 (including VAT) per year will be paid at the amount of £2.10 (including VAT) per quarter, for customers supplied by EDF Energy – either as a credit to electricity quarterly bills or via a credit to the customers Powerkey. Powerkey customers are advised to regularly charge their keys to ensure they receive this discount.

• Fixed daily charges (where shown) are payable whether or not any gas and/or electricity is consumed at your premises.

• The charges stated on this tariff sheet are dependant upon the suitability of the existing metering at your premises.

• The charges stated in this leaflet are only available for the supply of gas and electricity to continuously occupied premises used exclusively or mainly for domestic purposes within the areas defined above.

• The Dual Fuel and Direct Debit discounts are only applicable to tariffs within this leaflet and are subject to you having a concurrent supply of gas and electricity under an EDF Energy Domestic Supply Contract. You will not receive the discount for any period where there is no such concurrent supply (e.g. where supply of one fuel has not commenced or the supply of one fuel ends but the supply of the other fuel continues).

• Note that some including VAT prices have been naturally rounded.

• All prices are correct at time of publication (26 March 2010) although are subject to change. For further details on tariff information please call us free on 0800 096 9000†.

• Prices are applicable from 26 March 2010. Customers with key or smart card meters will need to charge their keys/smart cards with credit at an appropriate outlet on or after the 26 March 2010 and subsequently load credit onto their meter in order for these new prices to start to take effect. Customers with prepayment token meters will need to ensure their meter is correctly re-configured for these new prices to take effect. Please contact EDF Energy on 0800 096 9000† if your meter has not yet been re-set with these new prices.

For further details on tariff information please call us free on 0800 096 9000†.

†Calls may be monitored and recorded as part of our customer care programme. Calls to '0800' numbers are free from BT landlines, other network operators' charges may vary.
