Update for Qualifying Financially Disadvantaged Customers (QFDC)

The unit rates in this document do not include any QFDC reductions under the Energy Bill Relief Scheme. QFDC reductions cover consumption between 1 November 2022 and 31 March 2023. If you are billed to our Tariff rates then your invoices for these periods will be calculated using a unit rate that includes the QFDC reduction.

By comparing your invoice price to our published price you can identify the amount of reduction that has been applied.

If you receive a bill during November which covers any November consumption, you may receive it without the lower prices. Please continue to pay your bill as usual. You will receive a revised bill for this period in due course.

EDF reserve the right to remove the QFDC reduction if payment of an invoice is not made within 28 days of being payable (and if a payment plan is in place, it must be being adhered to).
