

# Hinkley Point C Marine Works Offshore Area – HAF Ridge Tile and Cable Drum Remediation Works

Rope Access works will be conducted by a team on the yellow HAF structures located within the charted HPC marine works in progress area as detailed below. This will also include the use of an underwater remotely operated vehicle (ROV) in the immediate vicinity of the structures. The support vessel "Ariel" will be used for the personnel transfer of this team, ROV operations and will also provide safety cover for the duration of works on these structures.

Chart extract of HPC marine works in progress area and identification of HAF structure locations (red dots).
