

# Carbon Trust Assurance Ltd Assurance Statement

## Terms of Engagement

Carbon Trust Assurance Limited (CTA) was commissioned by EDF to provide an independent, reasonable level of assurance on the following Selected Information which supports the commitments in Procedure Documents 1-13 and Electricity Certificates Policy.

- EDF has the appropriate procedures in place to monitor and allocate energy attribute certificates to each of the renewable energy products it offers – Renewable for Business, Select Renewable, Clean Renewable and UK Renewable – all of which are under the umbrella of the “Renewable tariffs”
- The electricity supplied for the period 1st April 2023– 31st March 2024 under the following products – Renewable for Business, Select Renewable, Clean Renewable and UK Renewable – all of which are under the umbrella of the “Renewable tariffs” – is 100% covered by energy attribute certificates that have been obtained and redeemed by EDF, in line with the Greenhouse Gas Protocol Scope 2 Guidance (2015).
- EDF has the appropriate procedures in place to monitor and allocate generator declarations of the corresponding technology to its ‘Zero Carbon for Business’ products.
- The electricity supplied for the period 1st April 2023– 31st March 2024 under the following products – ‘Zero Carbon for Business’ – is 100% covered by generator declarations held by EDF.
- The emission factors associated with EDF’s products - ‘Renewable’ tariffs, Zero Carbon for Business and ‘All other’ products - are reported in accordance with the GHG Protocol Scope 2 Guidance.

We have not performed any work, and do not express any conclusion regarding the ongoing effectiveness of the application of the existing procedures. We have also not performed any work over any other information that may be included in other EDF’s communications for the current year or for the previous periods unless otherwise indicated.

## Our Conclusion

Based on the work we have undertaken, and the evidence provided by EDF, we believe that the Selected Information has been properly prepared, in all material respects, in accordance with the Reporting Criteria.

This conclusion shall be read in the context of the remainder of this Assurance Statement, in particular the inherent limitations explained below and this statement’s intended use.

## Reporting Criteria

The Reporting Criteria used by EDF is:

- Greenhouse Gas Protocol Scope 2 Guidance (2015);
- EDF’s Electricity Certificates Policy;
- EDF’s Electricity Certificates Procedures 1-13.

The Selected Information shall be read together with the Reporting Criteria.

## **Management Responsibility**

The management of EDF are responsible for:

- designing, implementing, and maintaining internal controls relevant to the preparation and presentation of the Selected Information that is free from material misstatement, whether due to fraud or error;
- selecting and/or developing objective Reporting Criteria;
- measuring and reporting the Selected Information in accordance with the Reporting Criteria; and
- the contents and statements contained within the Policy Statement and the Reporting Criteria.

## **Our Responsibilities**

Our responsibility is to plan and perform our work to obtain reasonable assurance about whether the Selected Information has been prepared in accordance with the Reporting Criteria and to report to EDF in the form of an independent reasonable assurance conclusion based on the work undertaken and the evidence obtained.

## **Assurance Standards Applied**

We performed our work in accordance with CTA's assurance methodology based on the International Standard on Assurance Engagements 3000 (ISAE 3000).

## **Our Assurance Activities**

Our objective was to assess whether the Selected Information is reported in accordance with the principles of completeness, comparability, and accuracy. We planned and performed our work to obtain all the information and explanations that we believe were necessary to provide a basis for our assurance conclusions.

Considering the level of assurance and our assessment of the risk of material misstatement of the Selected Information, whether due to fraud or error, our work included, but was not restricted to:

- assessing the appropriateness of the Reporting Criteria for the Selected Information;
- conducting interviews on Microsoft Teams with EDF stakeholders to obtain an understanding of the key processes, systems, controls, and related documentation in place over the preparation of the Selected Information;
- reviewing the suitability of the Electricity Certificates Procedures 1-13 and Electricity Certificates Policy;
- performing analytical reviews and detailed sampling of the Selected Information;
- testing of energy attribute certificates and matching the total volumes with information from previous audits and information obtained via Ofgem - validation of the criteria used by Ofgem to award these certificates has not been performed; and

- reviewing the Policy Statement and narrative accompanying the Selected Information with regard to the Reporting Criteria, and for consistency with our findings.

## **Inherent Limitations**

The accuracy and completeness of the Selected Information is subject to inherent limitations given their nature and methods for determining, calculating, and estimating such data. As such, this Assurance Statement should be read in connection with the Policy Statement.

## **CTA's Competence and Independence**

CTA ensures the selection of appropriately qualified individuals based on their qualifications, training, and experience. The outcome of all verification assessments is then internally reviewed by senior management to ensure that the approach is rigorous and transparent.
