Choice (Index to Fixed)

Power Purchase Agreement

Our Choice PPA is designed for generators who want to choose between budget certainty and maximise returns when wholesale power prices are high.

Choice (Index to Fixed) PPA

At a glance...

The main features of this contract are:

- Contract duration from **6 months to 3 years**
- Greater **budget certainty** than contracts linked completely to the wholesale market
- Ability to sell your **ROCs and REGOs**

Choice (Index to Fixed) PPA explained

How does it work?

The Choice PPA meets the needs of generators looking for an increased exposure to wholesale market prices. The features of this contract make it a hybrid option between our Certainty (fixed price) PPA and Clarity (index-linked) PPA; meaning you can get the benefits of changeable wholesale prices or greater budget certainty. This contract is suitable for generators producing greater than 5 GWh per year.

You can also sell your ROCs and REGOs within the Choice PPA.

Why choose this option?

Our Choice PPA suits generators who are able to actively manage their contract throughout its duration.

Is the Choice (Index to Fixed) PPA right for me?

Many generators look for certainty in output prices, but that does not guarantee the best price and you may lose some flexibility. Within the Choice PPA, you can choose what pricing mechanism to use, fixed or index linked.

As the Choice PPA is linked to the electricity wholesale market, your business is not guaranteed a price for your output; if budget certainty is important to you, consider our Certainty PPA as an alternative.

How do I get started?

We have a number of contract options for your business; if you think that our Choice (index to fixed) PPA is right for you, get in touch with the PPA Team to discuss how we can help.

e-brochures

a better way of working

Why an e-brochure? At EDF we are committed to using the most sustainable working practices wherever possible and this includes when delivering communications to our customers.

E-brochures significantly reduce the volume of printed material we need, reducing our carbon footprint.

Our customers appreciate e-brochures because they offer timely delivery of easy to access information in an ideal format for the modern screen based working environment.
