# Clarity (index)

## Power Purchase Agreement

Our Clarity PPA is designed for generators that want to get paid market reflective prices. The Clarity PPA recognises that your output can be variable. The prices paid are linked to a published wholesale market index.

# Clarity (index) PPA

At a glance...

The main features of this contract are:

- Clear, transparent prices based on a recognised, published index (e.g. N2EX or SSP)
- Contract duration between 6 months to 3 years
- Ability to sell your ROCs and REGOs

Energy output

# Clarity (index) PPA explained

## How does it work?

The Clarity PPA meets the needs of generators looking for a truly market reflective price for their output, or with their own view on market prices.

You can also sell your ROCs and REGOs within the Clarity PPA.

## Why choose this option?

Our Clarity PPA suits generators who want to get paid a market reflective price. With this contract, your business has complete clarity over the price you sell your energy at; and the price paid reflects the wholesale market conditions throughout the contract. This ensure that you will always benefit from rising wholesale prices, but equally have the control over when to generate and when not to generate, if you have the ability, which may be useful in a falling market.

This contract is suitable for generators exporting more than 0.5 GWh per year.

## Is the Flex PPA right for me?

If your main driver is flexibility with a market reflective price, the Clarity PPA provides you with the framework to ensure that you can export your power when you want to.

As the Clarity PPA is directly linked to the electricity wholesale market price, your business is not guaranteed a fixed price for your output; if budget certainty is important to you, consider our Certainty PPA as an alternative.

# How do I get started?

We have a number of contract options for your business; if you think that our Clarity (index) PPA is right for you, get in touch with the PPA Team to discuss how we can help.

## e-brochures

### a better way of working

Why an e-brochure? At EDF we are committed to using the most sustainable working practices wherever possible and this includes when delivering communications to our customers.

E-brochures significantly reduce the volume of printed material we need, reducing our carbon footprint.

Our customers appreciate e-brochures because they offer timely delivery of easy to access information in an ideal format for the modern screen based working environment.
