

## **BILL LIU**

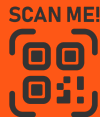

**HEAD OF FLEET IMPROVEMENT  
PROGRAMMES WITHIN THE OPERATIONS  
SUPPORT DIRECTORATE**

### **BIO:**

A nuclear professional with over 40 years industry experience, starting as a mechanical technician apprentice in 1985 at Heysham 1 power station. A Fellow of the IMechE, I have worked across both Heysham sites within Engineer and Engineering Group head positions, leading to my successful appointment into the following Station Exec Manager positions; Engineering Manager, Maintenance Manager, Joint Site Training Manager, Projects Portfolio Manager. I then moved into my first permanent central role within Investment Delivery as a Regional Operations manager. I have been lucky enough to be part of the 1 PD Community and continue to work within Programmes and Project delivery today.

# DAVE TURNBULL

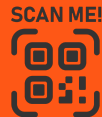

EPC MANAGER

## BIO:

David has 18 years of experience in project management within the energy sector, specializing in planning, project, programme, and portfolio management. Over the past three years, he has led project controls at EDF Nuclear Operations, where he has been focused in fostering an environment driven by data-fueled decision-making. David's expertise lies in implementing strategic processes and frameworks that enable operational excellence and deliver measurable results.

# CLARE SHARPE

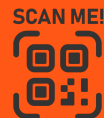

TRANSFER & DECONSTRUCTION DIRECTOR, EDF UK  
PRESIDENT, WOMEN IN NUCLEAR UK

## BIO:

Clare Sharpe leads the strategic transfer of EDF's Advanced Gas-cooled Reactor stations to the Nuclear Decommissioning Authority and Nuclear Restoration Services, overseeing their safe and efficient deconstruction. As President of Women in Nuclear UK, she champions gender balance and inclusion across the nuclear sector. Clare previously served as Business Performance and Transformation Director, embedding governance and change across EDF, and led the transformation of central support functions. Her earlier roles span IT leadership, Programme Management, and Business Change. Clare began her energy career at British Energy in 2007, following project and programme management roles in the Home Shopping industry. She holds an MSc in Pure Mathematics and a BA in Mathematics & Philosophy, and is known for her strategic insight, collaborative leadership, and commitment to innovation in complex environments.

# BOB ANSTEY

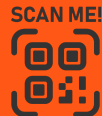

SECTOR DIRECTOR DEFENCE AND NUCLEAR ENERGY  
(COSTAIN)

## BIO:

Bob joined Costain in 2023 after a career in the Royal Navy spanning 37 years. A Warfare Officer by trade, he completed a series of operational sea-going appointments and the successful completion of 'Perisher', the Royal Navy's gruelling Submarine Command Course, before being rewarded with command one of the UK's Vanguard Class Ballistic Missile Submarines. Latterly, Bob held a number of senior management roles and was awarded the OBE in 2020 for his services to the Continuous At Sea Deterrent (CASD). Now, as part of Costain's Senior Leadership Team, his role is to head up the Defence and Nuclear Energy Sector. Bob's goal is to capture and build upon Costain's existing customer relationships, capabilities and industry understanding to develop and implement a strong and sustainable Defence & Civil Nuclear strategy for the business.

# BRYGIDA GUMULA

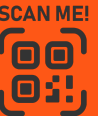

SUPPLY CHAIN SPECIALIST

## BIO:

Brygida Gumula serves as a Supply Chain Specialist and Contract Manager within Nuclear Operations, where she oversees strategic PMR and PCR frameworks. Her role centers on optimizing contract performance, strengthening partnerships with key suppliers and stakeholders and driving continuous improvement initiatives to enhance supply chain efficiency. Brygida leads the renewal and alignment of PMR and PCR framework agreements with evolving business needs and long-term operational goals, ensuring consistency, collaboration, and value delivery across the supply chain.

# ROHAN MULVANEY

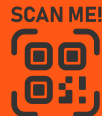

HEAD OF PORTFOLIO MANAGEMENT OFFICE  
NUCLEAR DECOMMISSIONING

## BIO:

Rohan is an APM Chartered Project Professional with more than 35 years of experience in the nuclear industry providing Senior Leadership roles across the Magnox and AGR fleet inclusive of contract partners. A recognised leader in project and programme management and member of Nuclear operations SLT, he has a proven track record of delivering and overseeing complex, high-value initiatives. Throughout his career, Rohan has consistently implemented robust project controls and governance frameworks, ensuring efficiency, compliance, and stakeholder confidence across some of the sector's most challenging programmes.

# STEVE MARSHALL

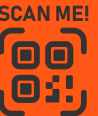

PROJECT PORTFOLIO MANAGER AT HEYSHAM 1  
POWER STATION. CURRENTLY SECONDED TO  
HARTLEPOOL POWER STATION AS IMPROVEMENT  
PROGRAMME LEAD

## BIO:

My career began at British Gas in 1999 as an apprentice Domestic Gas Installer, earning Apprentice of the Year in 2000. This early recognition and appreciation of a quality apprenticeship scheme and mentor programme set the tone for my career, as I progressed through a variety of roles including surveying, sales, quality oversight, and several leadership positions. In 2008, I joined British Energy as an Operations Technician. I advanced to Reactor Desk Engineer and then transitioned to day roles to broaden my experience. These included Work Week Manager, Work Management Group Head, Maintenance Manager, Ops Focus Manager, and Deputy Ops Manager. I made a conscious decision to join Project Delivery in 2022. EDF has supporting my professional growth through sponsorship of my HNC, MBA, and APMQ MAPM qualifications. I am passionate about leadership and personal development, and I take great satisfaction in helping others identify opportunities to grow and succeed.

# MAYA REID

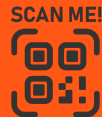

DEFUELING PROJECT MANAGER

## BIO:

Maya is a APM Qualified Project Manager with 8 years experience. Having started her career as an Project Delivery apprentice at the Ministry of Defence working on projects for the specialist user, Maya took the opportunity to join EDF 3 years ago for a new challenge and has not looked back. Currently working on Hartlepool station projects within the Defueling Preparations team in Nuclear Decommissioning. In addition to the day job Maya is an active member on the EDF Womens Network Steering Committee, hosting virtual events. A strong advocate for Women succeeding within Nuclear & Project Delivery, always identifying opportunities to ensure personal career experiences and advice is shared to others within the organisation.

# BINITA PATEL

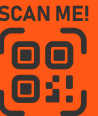

GRADUATE PROJECT MANAGER

## BIO:

Binita is a Graduate Project Manager with two years of industry experience. She began her career at EDF as a Project Engineer on the Hinkley Point C project, where she developed a strong foundation in engineering delivery. Following her graduation from the University of Leicester with a degree in Physics, she chose to transition into project management, driven by a passion for leading complex initiatives and delivering impactful outcomes.

# CHLOE FOOTE

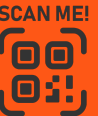

GRADUATE PROJECT MANAGER

## BIO:

I began my project management journey as an intern in the construction industry. My professional career with Amentum began in September 2024 when I joined the Project Management Graduate Scheme. This dynamic and structured programme has already laid a strong foundation for my development, offering me the opportunity to complete a variety of rotations across EDF Energy and Sizewell C. Each rotation has helped me to grow my confidence and capability by deepening my understanding of how different teams, tools and processes contribute to successful project delivery. Most recently, I chose to transition into PMO to deepen my understanding of project controls and governance. This move has allowed me to explore how project management and project controls interlink with broader project delivery. I'm passionate about gaining experience across key areas of the business, and I'm particularly driven by opportunities that support both leadership growth and personal development.

# JAMES SHEPHERD

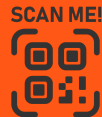

CATEGORY MANAGER OF DEFUELING PREPARATIONS

## BIO:

After completing my Politics degree from the University of Southampton, I returned to my long-time holiday job at a local tyre depot. When Kwik-Fit acquired the business, I transitioned into an IT role marking the start of my IT career in 1999. Over seven years, I progressed from support roles to overall responsibility for the IT services for Kwik-Fit's Mobile division. I then joined the Civil Nuclear Constabulary in 2007, eventually becoming Programme Manager for an Operational Improvement Programme. I later led IT support at Dimensions UK before moving to NFU Mutual in 2018 as an IT Programme Manager. In 2021, I joined EDF's Nuclear Decommissioning Client Team, before moving into my current role in April 2024. I live in South Oxfordshire with my wife Gayle and two teenagers Toby and Lily. A lifelong motorsport fan, I once raced an MG Maestro and still enjoy the occasional track day.

# JONATHAN CONNELL

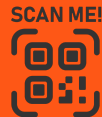

STRATEGIC SUPPLIER RELATIONSHIP MANAGEMENT

## BIO:

My role is about long term sustainable relationship management with our strategic supply partners, where we identify shared goals that will enable both parties to benefit. As part of that, my team has responsibility for contracting frameworks for professional and engineering services – a range of services from project management/project controls resource through to technical consultancy and novel engineering solutions. I joined EDF back in 2007 in our Industrial & Commercial supply business, where I was responsible for half-hourly demand forecasting, prior to moving into Nuclear Operations in 2016.

# NICOLA FAUVEL

STATION DIRECTOR, HINKLEY POINT B

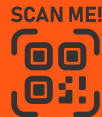

## BIO:

Nicola has 26 years of experience in the nuclear industry, and started her career at Torness as a Systems and Design Engineer. After working in France for five years at the EDF National Nuclear Engineering Centre on the generic design assessment of the European Pressurised Reactor (EPR), and at Flamanville 3, Nicola joined Hinkley Point C (HPC) in 2014. She held several technical, leadership and project manager positions on the project. Nicola joined Hinkley Point B (HPB) power station in 2022 as Plant Manager. HPB generated 311 TWh safely over 46 years and is now shutdown and in the defueling stage. She is currently Station Director at HPB.

Nicola has a Master's degree in Mechanical Engineering, and is a Chartered Engineer. Nicola lives in Bridgwater, and has two teenage children. She is fluent in French and enjoys preparing food with her children that they may even eat.

# KIMBERLEY CULL

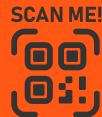

ORGANISATIONAL DEVELOPMENT SPECIALIST  
(WELLBEING AND INCLUSION LEAD)

## BIO:

A strategic leader with 10 years' experience in the nuclear sector, currently driving equity, diversity & inclusion (ED&I), mental health and employee experience strategies at EDF. I recognise that real culture change is achieved through its people so create sustainable programmes, with people at the heart, to create meaningful change. Highlights include mobilising EDF's conscious inclusion programme, which seeks to empower people to take consciously inclusive action to further build inclusion for everyone, and external recognition in the 2024 British Psychological Society's (BPS) 'excellence in mental health' awards category for the Nuclear Operations/Services strategic and action focused mental health programme. Prior to EDF, I spent a decade in education as Head of Psychology and Anthropology, drawing on my psychology background, which developed a deep understanding of human behaviour. My cross-sector perspective fuels my passion for creating psychologically safe, high-performing cultures and mobilising networks that empower people and performance.

**RICH BARLEY**  
GBP & HPB OPERATIONS MANAGER

**BIO:**

Prior to joining the real world, Rich served with the Royal Air Force for 24 years in a range of Aerospace Engineering roles, he joined as a Propulsion Systems Mechanic and concluded his career as the Chief Engineer for the RAF Search & Rescue Force. During his service career, Rich completed multiple tours supporting conflicts worldwide. Prior to joining Amentum in Sep 22, Rich spent 9 years with Babcock Aviation in multiple Senior Contract and Engineering Management roles. Outside of work, Rich has been actively involved in multiple pursuits from racing in the British Motocross Championship, attempting to play Bass Guitar in terrible rock bands to playing Rugby in the Welsh Valley (scars to prove the love for the English). As his body is worn out, he has taken up standing in a field while wearing white whilst waiting for a ball to come his way.

# HELEN ROSENTHAL

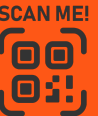

SENIOR PROJECT MANAGER (AMENTUM)

## BIO:

Helen Rosenthal is a Senior Project Manager with over 14 years of experience delivering complex programmes across the policing, social justice and now nuclear. Currently embedded with EDF through Amentum, she leads high-value projects including the Neutron Flux Detector Programme. Helen's career began in the charity sector, where she managed gang intervention services for a national organisation, shaping policy and contributing to UK Gangs and Street Violence Strategy. Then joining the public sector with Avon and Somerset Police, she delivered large-scale programmes of restorative justice and emergency preparedness in conjunction with the Ministry of Justice and Cabinet Office. She implemented national performance frameworks for the Constabulary, embedding a culture of continuous improvement. Qualified in APM PMQ, PRINCE2, and Lean Six Sigma, Helen is passionate about mentoring professionals, fostering collaboration, and building strategies that deliver measurable impact.

# ELAINE FALCONER

HEAD OF PROFESSION FOR PROJECT MANAGEMENT

## BIO:

As Head of Profession for Project Management at Amentum, Elaine is a leading voice in the development of project management capability where she champions the growth of project professionals, shaping standards and fostering excellence across complex, high-impact environments. A Chartered Project Professional, Fellow of the Association for Project Management, and Chartered Engineer, Elaine brings a rich, cross-sector perspective on what effective project leadership looks like. She is passionately committed to equipping project managers with the skills and mindset needed for the future. She is a chartership assessor for the APM and plays a key role in shaping the future of the profession through qualification standard-setting. Her commitment to lifelong learning is reflected in her ongoing PhD research, which explores the impact of complexity on nuclear decommissioning projects. Through this she is a regular contributor to academic and industry discourse.
