

RE.MATCH

Powering sustainable partnerships

CHANGE IS IN *OUR POWER*

WHAT IS RE.MATCH?

RE.Match is a smart matching service from EDF that qualifies and connects corporate buyers and renewable energy developers to facilitate long-term Corporate Power Purchase Agreements (CPPAs).

While most public tender platforms operate in the open market, where buyers and generators navigate a broad and often fragmented landscape, **RE.Match** offers a more focused and strategic alternative.

We connect established CPPA-ready supply customers with a curated portfolio of trusted independent generators, selected for their reliability, performance, and shared commitment to long-term value.

Backed by the deep expertise of the EDF team, **RE.Match** streamlines the journey from project identification to contract execution - making clean energy procurement simple, strategic and secure.

WHY RE.MATCH?

FOR CORPORATE BUYERS

Tailored project matching

We align your energy needs and sustainability goals with vetted solar, wind, and other renewable projects.

Risk & credit assessment

Our team conducts initial due diligence to ensure financial viability and mitigate risk.

Sustainability delivered

Secure a PPA to reduce your carbon footprint and elevate your ESG profile.

Price certainty

Lock in long-term energy rates to hedge against market volatility.

Procurement simplified

We help you tackle key challenges from the outset, bringing market insight and experience to avoid common pitfalls.

WHY RE.MATCH?

FOR RENEWABLE ENERGY DEVELOPERS

Access to buyers

Tap into a pipeline of qualified corporate customers ready to commit.

Project enablement

A corporate PPA can secure long-term contracts that support financing and project bankability.

Revenue diversification

Spread the risk of market volatility by complementing subsidised assets with alternative routes to market.

Vetted introductions

We do the groundwork vetting corporate readiness, so you don't have to.

THE DETAILS

CONTRACT LENGTH, ASSET TYPE AND PRICING STRUCTURE

Flexible contract durations available, starting from 3 years

20p per MWh fee for contract term (paid as a lump sum upon signature)

Fixed-price agreements for predictable returns

Available for operational, life extension and new build assets

POWERED BY EDF EXPERTISE

Our seasoned PPA specialists guide every step of the process, from evaluating project viability to structuring deals, ensuring both sides of the partnership benefit from transparency, trust, and long-term value.

Let **RE.Match** take the complexity out of clean energy procurement. We'll help you make meaningful connections and build sustainable futures. Contact us today to get started.
