FLEXIBILITY

**CERTAINTY**

# Certainty (fixed) PPA explained

## How does it work?

Once your generation is up and running, you will be required to export a minimum of 0.5 GWh per year to enter into EDF's Certainty PPA. In return, you will receive a fixed price for your output for the contract duration. Our Certainty PPA offers; either a single rate or seasonal time of day (STOD) rate.

You can also sell your ROCs and REGOs within the Certainty PPA.

To give you even greater stability, you can choose to add Certainty Plus. This optional upgrade allows you to fix all Embedded Benefits/Charges - including GDUoS and Triad - so you're protected from wider industry cost volatility. With Certainty Plus, you gain complete peace of mind, knowing both your revenue and your Embedded Benefits/Charges are locked in for the duration of your agreement.

## Why choose this option?

Our Certainty PPA gives you budget and income certainty as your generation income is fixed at contract signature and not exposed to wholesale market fluctuations. This gives you assurance in a volatile energy market, helping you deliver to your budget and, should you require, helping to put together a sound investment case. The main benefit is that before your contract starts, you are clear about the income you will receive throughout your agreement.

By adding Certainty Plus, you extend that confidence even further - removing uncertainty not just from your export price, but from the Embedded Benefits/Charges that can otherwise vary. It's a simple way to increase predictability and protect against avoidable financial risk.

### Fixed Embedded Benefits/Charges\*

	Certainty	Certainty Plus
Transmission Losses	✓	✓
Distribution Losses	✓	✓
Elexon	✓	✓
RCRC	✓	✓
GDUoS		✓
TNUoS (Triad)		✓

# How do I get started?

We have a number of contract options for your business; if you think that our Certainty (fixed) PPA is right for you, get in touch with the your EDF account manager or the PPA team to discuss how we can help.

## e-brochures

### a better way of working

Why an e-brochure? At EDF we are committed to using the most sustainable working practices wherever possible and this includes when delivering communications to our customers.

E-brochures significantly reduce the volume of printed material we need, reducing our carbon footprint.

Our customers appreciate e-brochures because they offer timely delivery of easy to access information in an ideal format for the modern screen based working environment.
