

CONFIDENCE PPA

EDF takes on the weather risk. You gain greater revenue certainty.

CHANGE IS IN *OUR POWER*

WHAT IS CONFIDENCE PPA?

Confidence PPA provides a more predictable revenue stream for renewable generators by paying a fixed monthly revenue amount.

EDF pays a fixed monthly revenue amount

EDF takes on the weather risk

Revenues become more predictable

Available for existing operational wind and solar assets only

Unlike traditional PPAs, where revenues fluctuate according to weather conditions, with Confidence PPA, EDF assumes the weather risk associated with natural variations in generation output, helping to reduce revenue volatility for asset owners.

HOW IT WORKS

Eligibility

- Operational wind or solar asset
- Minimum 3 years historical generation data
- Stable operating history
- Non-BMU asset
- Asset under 15 years old

Agree the contract

EDF and the generator agree contract terms and pricing based on historical asset performance and generation forecasts.

Receive structured payments

EDF pays a fixed monthly revenue amount over the contract term, providing greater revenue predictability. Normal seasonal differences between summer and winter remain reflected within the agreed payment profile.

Performance monitoring

EDF monitors actual generation performance against a weather-adjusted benchmark over the course of the contract.

Seasonal reconciliation

Periodic reconciliation ensures the contract remains aligned with the asset's actual long-term performance.

WHY CHOOSE A CONFIDENCE PPA?

Fixed monthly revenue
Receive payments based on an agreed monthly revenue amount designed to smooth normal revenue variability

Improved financial planning
Support more accurate budgeting, forecasting and business planning.

Reduced exposure to weather driven volatility
Help minimise the financial impact of typical weather-related fluctuations in generation volumes

Greater cashflow certainty
Provide additional confidence when managing operational costs, debt obligations and investment decisions

Multi-year agreements
Benefit from a structured payment arrangement over a 2 or 3-year period
