Understanding your policy and how your cover works

Please note that this policy does not cover normal day-to-day maintenance. You will have to pay for regular servicing of your boiler (other than in the first period of insurance) and to replace items which normally wear out.

This is an assistance policy that protects homeowners in case their boiler or its controls stop working and need to be repaired. It gives access to our nationwide network of approved contractors. They are available 24 hours a day to deal with any problem covered by your policy and make your boiler safe.

We will give this service at any time:

- during the period of insurance; and
- within the Geographical Limits; and
- as long as you have paid what we have asked.

Our aims

We aim:

- to give quick, expert help whenever your boiler breaks down; and
- to get an approved contractor to you as quickly as possible, every time.

Occasionally, there may be a delay when providing this service. This is most likely to happen if:

- you live in a remote area; or
- there is bad weather.

We cannot be responsible for any delay caused by a manufacturer, supplier or their agents. This includes any delay in them delivering spare parts, etc.

Policy cover

Boiler Protect

What is covered

If your boiler, or controls break down, we will cover the necessary repair or replacement of:

- any standard part that:
 - is fitted inside the boiler casing.
 - the manufacturer of the boiler has supplied; and
 - is designed to be used during the normal use of the boiler.
- any condensate pipe.
- frost and room thermostats.
- programmers.
- motorised or selector valves.
- time controls.
- single water circulating pump.

What is not covered

We will not cover

- any boiler that was eleven or more years old when you took out this policy for the first time.
- the excess shown in your certificate.
- a breakdown which happens before the policy starts or within 14 days of taking out this policy for the first time.
- any breakdown where the boiler and/or controls have not been properly installed, repaired or have been altered (e.g. where the wrong parts have been fitted) or does not meet current gas safe regulations.
- clearing air locks, unblocking pipes or correcting poor circulation.
- any boiler or system noise.
- warm air units, oil fired boilers, LPG or gas cookers, or gas fires.
- routine or regular maintenance that you are responsible for. This includes venting or bleeding radiators, turning the boiler off, ensuring radiator valves do not stick, lighting pilot lights and changing time switches.
- adjusting the water pressure on a sealed central heating system.
- the cost of and/or repair caused by rust, scale, hard water scale, corrosive water, water with a high chemical content.
- the cost of draining your system unless there is a suitable isolation and drainage point fitted.
- ducting, flues or warm air vents.
- fuel lines to the boiler. This includes gas leaks between the gas meter and boiler.
- the cost of refilling your system with any additives (e.g. corrosion inhibitors).

- the cost to service or replace MagnaClean Magnetic Filters.
- the repair or replacement of water circulating pumps that do not have a valve either side of the pump. This means that they cannot be removed without draining the system.
- pumps that have pipe work connections of one inch (2.5 cm) or bigger, or a motor rating of above 178 watts single phase.
- pumps installed in secondary or direct hot water systems.
- the repair or replacement of any internal or external pipework (except where this is inside the boiler casing).
- decorative parts, trims or casings.
- boilers with an output of more than 70 kilowatts per hour (238,850 BTU).
- items that are designed to be replaced regularly when using the boiler, such as nozzles, fuses and filters, etc.
- the repair or replacement of parts that have failed because the manufacturer's operating instructions were not followed.
- the replacement of any parts that have not broken down.
- anything mentioned in the general exclusions.

How we will deal with your claim

When you call us, you will need to pay any excess shown in your certificate. We will then arrange for an approved contractor to assess the situation to:

- identify the cause of the breakdown; and
- carry out the necessary repairs to your boiler.

How much will we pay

We will pay for all:

- call out charges.
- labour; and
- covered parts.

Beyond economic repair

Where your boiler is deemed beyond economic repair, we will pay a contribution towards the cost of a new boiler being installed. Once you send us an invoice from a qualified Gas Safe Contractor upon installation of a new boiler, we will pay a contribution of £500, less any premium outstanding to us.

A boiler can be uneconomical to repair for a number of reasons. These include:

- The cost of parts (including VAT) to repair the main heating system is greater than 85% of the manufacturer's current retail price of a replacement or a similar model,
- It would cost more to repair the boiler than to replace it with a new one; or
- New, genuine parts are no longer available to our suppliers; or
- The type of fault which has caused the boiler to fail and the extent of the repairs which will be required to fix it
- Any repair is only expected to result in a temporary fix and other faults are likely to occur shortly afterwards

Any decision regarding whether or not it is economical to repair your boiler will be made by our contractor, using their knowledge and experience of similar boilers and faults.

You may find another contractor who will be willing to repair your boiler, and this is your choice. However, we would not be able to continue to insure your boiler, even if it has been repaired by someone else.

Where you have had a new boiler fitted, we will not be able to keep insuring this as it will be covered by a separate guarantee (provided by the manufacturer or fitter). No refund of any premium that you have paid us will be given.

Servicing Your Boiler

You must make sure that your boiler is serviced regularly as recommended by the manufacturer. This will normally mean making sure your boiler is serviced at least once every year.

In the first year

Your policy includes an annual gas boiler service in the first year, which will be completed in accordance with current Gas Safety Regulations and the manufacturer's instructions. Please make sure you have the manufacturer's instructions available when the contractor attends your property. Your annual service will usually be completed within 90 days of your policy start date and will be carried out between 9.00am and 5.00pm Monday to Friday. If this is not convenient, it may be possible to arrange an alternative time, however you may be charged extra to service your boiler, controls and system at other times.

If any faults are found during this first service, you will need to have them repaired before we can cover your boiler and system. You must carry out these repairs within 30 days. If you do not, we may cancel your policy and you will not be covered.

If during the annual service the contractor advises us that it is no longer possible to source genuine, new replacement parts and we will be unable to continue to offer cover, your policy will be cancelled, and a proportionate refund will be allowed.

After the first year

You are responsible for arranging and paying for all other servicing of your boiler and any replacement parts that may be needed when this service is carried out. If you ask us to, one of our approved contractors can carry out the service for you, but you will have to pay for this. We will tell you how much this will cost if you call us.

The first service includes

- A visual inspection of the gas central heating system for leaks and corrosion and check to make sure they are operating correctly and safely.
- A flue test to make sure there are no unsafe emissions.
- A gas pressure check to ensure the boiler has the correct gas pressure.

At all times

You must make sure that an adult is present while the approved contractor services your boiler. If an adult is not there, your boiler will not be serviced, and you will have to make a new appointment. If this happens, you will have to pay the full cost of this new appointment.

What to do if you need to make a claim

If you or your nominated contact finds that you have to claim under this policy, you must call us straight away on the following emergency helpline:

0800 082 3426

If we cannot help resolve your problem over the phone, we will arrange for an approved contractor to visit you. Please note that you will have to pay the excess shown in your certificate before we can arrange this, so please make sure you have a valid debit or credit card available when you call us.

Major emergencies must be reported to your water, gas or electricity supplier and/or the emergency services.

Major emergencies include emergencies which may:

- result in serious danger to you or anyone else; or
- cause serious damage to your home or another property.

If there is no adult present when our approved contractor arrives at your home at the agreed appointment time, you will be charged £20 plus VAT.

What to do if you smell gas

SUSPECTED GAS LEAKS MUST ALWAYS BE REPORTED TO NATIONAL GAS EMERGENCY SERVICE ON 0800 111 999.

General conditions

1. You must answer all questions about this policy honestly and fully at all times. You must also tell us straight away if anything that you have already told us changes. For example, you must tell us if you move home or buy a new boiler. If you do not tell us, your policy may be cancelled and any claim you make may not be paid.
2. You must have your boiler and central heating system serviced annually or as often as the manufacturer recommends. You should keep a copy of service documents in case you need to make a claim.
3. If any claim under this Policy is in any respect fraudulent or unfounded, all benefit paid and/or payable in relation to that fraudulent claim shall be forfeited and (if appropriate) recoverable. We shall not be liable to you in respect of a relevant claim occurring after the time of the fraudulent act. For the avoidance of doubt, the rights and obligations of the parties to the contract with respect to claims occurring before the time of the fraudulent act are unaffected; and
 - We need not return any Premiums paid
 - We may share information about the circumstances with other organisations, public bodies, authorities and law enforcement agencies for criminal investigation.

If this insurance contract provides cover for any person who is not a party to the contract (an Insured Person), and a fraudulent claim is made under the contract by or on behalf of an Insured Person, We may exercise the rights set out as if there were an individual insurance contract between Us and the Insured Person. However, the exercise of any of those rights shall not affect cover provided under the contract for any other Insured Persons. Nothing in these clauses is intended to vary your statutory rights.

The policy relating to the insured who has committed the fraudulent act may be rendered as invalid. Where there are multiple insured individuals provided for under the policy and the fraudulent act is deemed to be isolated to the individual insured in question, the cover relating to other insured persons who remain on the policy shall remain unaffected.

4. You must keep to all the conditions and endorsements of this policy. If you do not, we may not pay your claim.
5. If someone else is responsible, we may take court action in your name to recover any claims we have paid. We will pay for the cost of taking this action and it will be for our benefit.
6. You must tell us as soon as you know of a possible claim under your policy. If we let you use your own contractor, you must let us agree the total cost of repair before the work is started. You may need to pay for this work and claim the cost back from us. You must send us all the documents we need to deal with your claim. You will be responsible for any costs involved in doing this.
7. You must pay us back within one month of asking, any amounts that we have paid which are not covered by this insurance.
8. You must tell us if any claim covered by this policy is also covered by any other insurance or maintenance contract, guarantee or warranty. You must give us full details of the other supplier and we will only pay our fair share of the claim.

9. You must let us check that your boiler and controls are in good working order at any time. We will give you as much notice as we can and agree a convenient time to call. If you do not let us inspect your boiler, we may not be able to continue with this policy.
10. The approved contractor may need to gain direct access to a hidden area to trace or resolve a problem. This may mean, for example, removing cupboards, tiles or plaster from walls in your home. You will need to agree to this work being done before we can continue with your claim. If you prefer, you can instead ask and pay for someone else to gain direct access. The approved contractor will return to deal with your claim once this has been done.

 - (i) computer viruses; or
