Fixed gas contracts for
business customers

Standard Fixed Gas

at a glance...

Our Standard Fixed Gas contract protects you from wholesale market fluctuations by fixing your energy costs.

How can Standard Fixed Gas help your business?

- ✓ Energy price certainty for the duration of your contract
So you can budget better
- ✓ Shield your business from wholesale market price volatility
The price of your energy won't change even if the market does
- ✓ We'll do all we can to shelter you from non-energy cost fluctuations
Our experts work hard to forecast costs as accurately as possible
- ✓ Benefit from our generous volume tolerance
You can vary your volume on <10GWh annual consumption without any risk of penalty

Standard Fixed Gas

explained...

We understand that budgeting for your business is easier when your energy prices are fixed. With Standard Fixed Gas, your **wholesale energy prices are fixed** for your whole contract period.

How does it work?

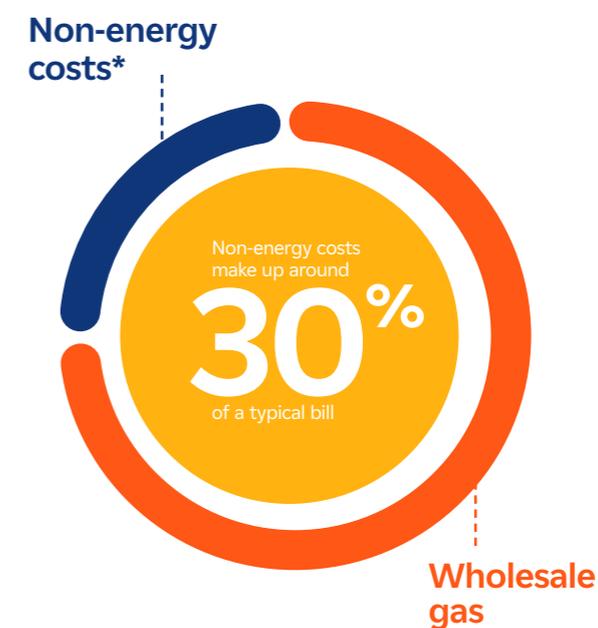

Your gas bill comprises two main elements:

- 1. The cost of gas** purchased on the wholesale market, which can be fixed by buying volume at a specific time
- 2. Non-energy costs**, which are set by third parties and are related to the delivery of your gas and investment in the system

With Standard Fixed Gas, your wholesale prices are fixed but non-energy costs are based on a forecast. While our highly experienced Wholesale Market Experts do all we can to keep your non-energy costs stable, this product does allow for some fluctuation. If non-energy costs end up higher than the forecast, there may be an increase in the price you pay.

Is your business eligible?

Maximum site AQ: 40GWh / Meter type: Non-daily metered only

*These non-energy costs are based on our forecast and may vary

Standard Fixed Gas

explained...

Why choose Standard Fixed Gas?

When you sign your Standard Fixed Gas contract with us, we'll purchase your wholesale energy. So, if the wholesale energy market rises, you have peace of mind that these costs won't change.
