¹ The Daily standing charge applies whether or not you use any electricity or gas at your premises as supplied by EDF.

² Standard meter - this is the most common type of meter for electricity and gas. These meters show a Unit rate (kWh) using a mechanical clock, digital display or dial.

³ Economy 7 meter - also known as E7. This is a two-rate meter for electricity that shows a Day rate (kWh) and a Night rate (kWh). Night rate gives you cheaper unit rates for a total of seven hours, typically between 10pm and 8am (actual times are set by the local network operator and can be found on your bill). All other kWh will be charged at the Day rate. The charges shown are only available for supplying electricity and gas to continuously occupied premises.

⁴ Evening Weekend Night. This is a three-rate meter for electricity that shows a Day rate (kWh), Night rate (kWh) and an Evening / Weekend (kWh) rate. Night rate and Evening / Weekend rate gives you cheaper unit rates for specific periods (actual times are set by the local network operator and can be found on your bill). All other kWh will be charged at the Day rate. The charges shown are only available for supplying electricity and gas to continuously occupied premises.
