

ELECTRICITY NEW CONNECTIONS

Electricity new connections for
business customers - made simple

INTEGRATED
ENERGY SOLUTIONS
POWERING CHANGE

POWERING YOUR SITE STARTS HERE.

Need a new electricity connection or more capacity for your site? We're here to help.

Whether you're building a new site, expanding your premises, moving location or increasing your electricity capacity, we'll help make getting connected as simple as possible. From Low Voltage (LV) to High Voltage (HV) connections, we're here to guide you.

We're here to do more than get your site connected. By bringing together new connections, electricity supply, metering, data services and energy solutions such as EV charging, solar and battery storage, we can make managing your energy simpler today while helping you plan for tomorrow.

END-TO-END SUPPORT

Our experienced New Connections team will support you from your first enquiry right through to your electricity being switched on. We'll help you understand the process, coordinate your meter installation and answer any questions along the way.

WHY CHOOSE EDF

- ✓ **ONE TRUSTED PARTNER** Choose EDF for both your electricity supply and metering, and you'll benefit from a simpler experience with everything managed by one team.
- ✓ **DEDICATED SUPPORT** Our experienced team will support you throughout your project, providing expert guidance and a consistent point of contact.
- ✓ **INTEGRATED METERING SOLUTIONS** Simplify your new connection by choosing EDF for your metering and data services. We offer a complete metering solution, with your electricity supply and metering managed by one trusted partner and supported by dedicated specialists throughout your journey.
- ✓ **CONTRACTS TO SUIT YOUR BUSINESS** When you choose EDF for your new connection, you can access our market-leading fixed-price electricity contracts for both Half Hourly (HH) and Non-Half Hourly (NHH) supplies. With no volume tolerance, you'll have greater confidence and control over your energy costs.
- ✓ **BEYOND SUPPLY** Our support doesn't stop when your electricity goes live. As your business grows and your energy needs change, we can help you plan for the future. From electrification and EV charging to solar, battery storage and long-term energy strategies, we'll help you find the right solutions for your ambitions.

NEW ELECTRICITY CONNECTIONS AT A GLANCE...

Getting a new electricity connection involves several organisations working together behind the scenes. The good news is that we'll help you understand what's happening and what you need to do at each stage.

1. Get in touch

Tell us about your project and your electricity requirements. We'll explain the information we need and help you get started.

2. Receive your quote

We'll provide a competitive quote and explain the next steps, including what's needed for metering and the wider connections process.

3. Meter installation

We'll arrange for your electricity meter to be installed. You can choose EDF as your Meter Operator or continue with your existing provider.

4. Your electricity supply is switched on

Once the network connection is complete and your meter has been installed, your site will be ready to receive electricity.

5. Ongoing support

After your site is connected, EDF can continue to support your business with electricity supply, account management and a range of energy solutions, including electrification, EV charging, solar, battery storage and long-term energy strategies.

**GET IN TOUCH FOR A
COMPETITIVE QUOTE TODAY**
newconnectiononline@edfenergy.com

If you are an existing customer or partner, please contact your EDF Account Manager for a quote.
