

# Charge1EV

## Single smart electric vehicle charge point for your workplace

- ✓ 1 eoBasic 7kW single charge point
- ✓ Fully installed\*
- ✓ 3-year warranties on charge point and installation

**£1,300** excl. VAT<sup>^</sup>

EDF Energy is offering businesses who wish to provide EV charging for their workplace and employees an end-to-end charging solution. At a competitive price of £1,300 excl. VAT\* you can have a single 7kW eoBasic single charge point installed at your premises together with eoAutomatic load management to ensure that your electricity demand does not exceed any local constraints.

Submit your enquiry at  
[ev@edfenergy.com](mailto:ev@edfenergy.com)  
or visit us at  
[edfenergy.com/ev](https://www.edfenergy.com/ev)

\*Subject to limitations detailed on the next page.

<sup>^</sup> £1,560 incl. VAT for Charge1EV. Price is dependent on business being eligible for the £500 OLEV Workplace Charging Scheme grant contribution per socket. Should the customer not be eligible a £500 per socket surcharge is applied.

## Charge1EV includes

- 1 eoBasic 7kW charge point and smart capability with 1 eoAutomatic load management (enables up to 6 charge points to be linked and manages the load across the vehicles without exceeding any local capacity constraints)
- All installation, commissioning and associated hardware subject to limitations detailed below
- Wall-mounted charge point (post-mounted charge point can be offered at additional cost)
- 3-year warranty on charge point and installation

## Limitations on Charge1EV

### Technical limitations & inclusions

- Maximum cable run of 12 metres from distribution board (between the source of power for the charge point and the intended charge point location). Steel wire armoured cable run – surface mounted with cables clipped directly to existing wall. Available for wall-mounting on building with mains supply
- 40A MCB overcurrent protection. 2-pole 30mA Type A RCD protection. Earth rod installed in surface enclosure
- Inspection, testing, certification included, OLEV grant claim
- No grid upgrades and civil works will be included (i.e. no digging trenches)
- EDF Energy excludes any sites that require special access requirements, including hazardous sites and working at height

### Limitations on availability

- Available for Great Britain only. Not available in selected postcodes (Scottish Islands (HS1- HS9, IV41-IV49 / IV51 / IV55-IV56, KW15-KW17 / KA27-KA28, PA20 / PA41-PA49 / PA60-PA78, PH42-PH44, ZE1-ZE3), Channel Island (all postcodes containing GY and JE), Isle of Man (All postcodes containing IM), Scilly Isles (TR21-TR25))
- Price includes OLEV funding. If the customer is not eligible for the OLEV funding then there is a £500 surcharge per charge point. Customer must confirm eligibility for the **Workplace Charging Scheme (WCS)** – please check with us if you are uncertain and need to confirm
- Additional charge points can be added at the same site for £600 excl. VAT (£720 incl. VAT) up to a maximum of 6 charge points per site. Locking bolt to prevent unauthorised access an additional £40 excl. VAT (£48 incl. VAT)
- No maintenance included beyond 3-year warranty – customer can add further maintenance directly with The Phoenix Works (at additional cost)
- No insurance included
- EDF Energy maintain a right of refusal
- Contract and works completed by The Phoenix Works. Complaints to be directed to The Phoenix Works at [cs@thephoenixworks.com](mailto:cs@thephoenixworks.com)

## How to claim Charge1EV

1. Submit your enquiry at [ev@edfenergy.com](mailto:ev@edfenergy.com) or on our website at [edfenergy.com/ev](https://edfenergy.com/ev) and quote **Charge1EV** when speaking to our sales agents.
2. By submitting an enquiry, you are stating that you are eligible for Charge1EV as detailed. EDF Energy will contact you to confirm eligibility.
3. Our trusted installation partner, The Phoenix Works, will arrange to visit your site and install your charge points as well as supporting the OLEV WCS rebate.
4. The Phoenix Works will require access to your site to install the charge point on a suitable wall a maximum of 12 metres from the site distribution board.
5. The Phoenix Works will present the contract and the invoice for EDF Energy Charge1EV.
6. EDF Energy can support you further on your journey with electricity tariff options and electric vehicle leasing should you require it.
