

EDF support for those who need it most

CARE steps of support

At the start of 2022 we launched our CARE Steps of Support to ensure we always provide a level of support that's tailored to individual needs.

Pay As You Go

- We have tailored measures in place to identify and support **Pay As You Go** customers at risk of self-disconnection.
- This includes the provision of discretionary credit and a pause to debt repayment plans if a customer is unable to afford to top up their meter.

Financial assistance

We provide rebates via our customer fund or in partnership with organisations.

Warm Home Discount scheme

£140 WHD each year

EDF continues to support customers in or at risk of fuel poverty by providing the £140 WHD rebate each year.

Launched **broader** group rebate in **September 2021**

Invited **160k** customers to apply for this year's scheme

Reduced time between application and payment to give customers **access to funds sooner**

Total **£36m** in rebates awarded

Customer Support Fund

£50m debt relief since 2003

Our dedicated customer support fund has helped **52,000** customers since it was set-up in 2003, providing almost **£50m** of debt relief to those who need it most.

Provided debt relief to **1,275** of our most vulnerable customers in 2021

880 awards for energy efficient white goods to our **most vulnerable customers**

42% converted from a non-secure to a secure payment method

93% of supported customers remain **debt free** after at least 6 months

Partners

In 2021 we committed £3.7m by working with third parties to help fuel-poor customers.

Committed
