Description	The GoElectric single-rate tariff offers a competitive flat unit-rate all day, every day		The GoElectric 98 tariff offers the largest number of off-peak hours from 9pm to 7am every weekday (GMT) and all day at the weekends			GoElectric 35 tariff offers our lowest off-peak price, every night from 12am to 5am (GMT), seven days a week			GoElectric gas is available alongside all GoElectric tariffs	

About the GoElectric tariff

The GoElectric tariff has three structures:

- GoElectric flat-rate (same unit price all day every day)
- GoElectric 98 (with off-peak hours between 9pm-7am GMT weekday evenings and all weekend)
- GoElectric 35 (with off-peak hours between 12-5am GMT every day)

Once you've signed up to GoElectric, you lock in the prices across all 3 structures that are in effect on the day you sign up. This means that even if newer versions of GoElectric are launched which have different prices, this will not affect you. You can move between the structures freely for the duration of your tariff whilst keeping the same end date, and you won't incur any fees.

How to move between GoElectric structures:

To move between structures, you will need to be an existing EDF customer with a compatible smart meter. If you're new to EDF and already have a compatible smart meter, we will let you know once your meter has connected to our systems. If you've not got a smart meter we will invite you to book a smart meter appointment once we have engineer availability in your area. You can also check for availability in MyAccount. When you're ready to change structures, simply follow these steps:

1. Go to our online quote tool at www.edfenergy.com/electric-cars/go-electric-quote and click the 'Yes' button when asked 'Are you on an electric vehicle tariff with us already'. You will then see the option for changing structure.
2. Get a quote and switch structure online - choose which one is best for you and submit your request to change structure. We'll then update your meter remotely to the new structure. Please note that it may take up to 20 working days to process your structure change.
