\*The free gas boiler service applies only to standard gas boilers up to 70kW and includes:

- A visual inspection of the boiler for leaks and corrosion, and to check to make sure it is operating correctly and safely
- A flue test to make sure there are no unsafe emissions
- A gas pressure check to ensure the boiler has the correct gas pressure
- The gas boiler service does not include any additional labour costs, parts or repairs to the boiler or gas pipes if it is found to be in disrepair or working incorrectly. Any repair cost may be negotiated with the engineer directly.
- If the gas boiler is found to be unsafe, the engineer may need to deem the boiler as unsafe and may have to stop further use of the boiler by the customer. By agreeing to this offer, the customer understands that this may be an outcome of the free boiler service and they will be responsible for arranging repairs to enable the boiler to be made safe and to be switched back on.
