

## Our complaints performance

The total number of complaints received during April, May and June (Q2) 2017 was 121,405. This is lower than the previous quarter (126,724) and significantly lower than complaints received in Q2 2016 (133,467).

Through our complaints improvement programme, we've continued to look at the causes of customer dissatisfaction. We've then addressed these causes by making improvements to our systems and processes. We will continue making positive changes throughout 2017 and beyond.
