How we will deal with your claim under Section 1

Please also refer to the Section "What to do if you need to make a claim".

When you call us, you will need to pay any excess shown in your certificate. We will then arrange for an approved contractor to assess the situation to:

- identify the cause of the breakdown; and
- carry out the necessary repairs to your boiler.

Overnight accommodation

If you have a valid claim and your home cannot be lived in for more than 24 hours, we will pay towards the cost of you staying in a local hotel or guest house overnight.

How much will we pay

We will pay for all:

- call out charges;
- labour;
- covered parts; and

- up to **£150** including VAT for overnight accommodation.

Beyond economic repair

Where your boiler is deemed beyond economic repair, we will pay a contribution towards the cost of a new boiler being installed. Once you send us an invoice from a qualified Gas Safe Contractor upon installation of a new boiler, we will pay a contribution of £500, less any premium outstanding to us.

A boiler can be uneconomical to repair for a number of reasons. These include:

- The cost of parts (including VAT) to repair the main heating system is greater than 85% of the manufacturer's current retail price of a replacement or a similar model, It would cost more to repair the boiler than to replace it with a new one; or
- New, genuine parts are no longer available to our suppliers; or
- The type of fault which has caused the boiler to fail and the extent of the repairs which will be required to fix it
- Any repair is only expected to result in a temporary fix and other faults are likely to occur shortly afterwards

Any decision regarding whether or not it is economical to repair your boiler will be made by our contractor, using their knowledge and experience of similar boilers and faults.

You may find another contractor who will be willing to repair your boiler and this is your choice. However, we would not be able to continue to insure your boiler, even if it has been repaired by someone else.

Where you have had a new boiler fitted, we will not be able to keep insuring this as it will be covered by a separate guarantee (provided by the manufacturer or fitter). No refund of any premium that you have paid us will be given.

Annual service

Your policy includes an annual gas boiler service, which will be completed in accordance with current Gas Safety Regulations and the manufacturer's instructions. Please make sure you have the manufacturer's instructions available when the contractor attends your property.

Your annual service will usually be completed between April and September and will be normally be carried out between 9.00am and 5.00pm Monday to Friday. If this is not convenient, it may be possible to arrange an alternative time, however you may be charged extra to service your boiler, controls and system at other times.

If during the annual service the contractor advises us that it is no longer possible to service the boiler or source genuine, new replacement parts, we will be unable to continue to offer cover, your policy will be cancelled and a proportionate refund will be allowed.

The annual service includes

- A visual inspection of the gas central heating system for leaks and corrosion and check to make sure they are operating correctly and safely;
- A flue test to make sure there are no unsafe emissions;
- A gas pressure check to ensure the boiler has the correct gas pressure.

At all times

You must make sure that an adult is present while the approved contractor services your boiler, controls and system. If an adult is not there, your boiler, controls and system will not be serviced and you will have to make a new appointment. 1. You must answer all questions about this policy honestly and fully at all times. You must also tell us straight away if anything that you have already told us changes. For example, you must tell us if you move home or buy a new boiler. If you do not tell us, your policy may be cancelled and any claim you make may not be paid.
2. You must protect your home and try to prevent any loss or damage. You must keep your home in good condition and regularly carry out routine maintenance.
3. You must have your boiler and central heating system serviced annually or as often as the manufacturer recommends. You should keep a copy of service documents in case you need to make a claim.
4. If any claim under this Policy is in any respect fraudulent or unfounded, all benefit paid and/or payable in relation to that fraudulent claim shall be forfeited and (if appropriate) recoverable. We shall not be liable to you in respect of a relevant claim occurring after the time of the fraudulent act. For the avoidance of doubt, the rights and obligations of the parties to the contract with respect to claims occurring before the time of the fraudulent act are unaffected; and

- We need not return any Premiums paid

- We may share information about the circumstances with other organisations, public bodies, authorities and law enforcement agencies for criminal investigation

If this insurance contract provides cover for any person who is not a party to the contract (an Insured Person), and a fraudulent claim is made under the contract by or on behalf of an Insured Person, We may exercise the rights set out as if there were an individual insurance contract between Us and the Insured Person. However, the exercise of any of those rights shall not affect cover provided under the contract for any other Insured Persons. Nothing in these clauses is intended to vary your statutory rights.

The policy relating to the insured who has committed the fraudulent act may be rendered as invalid. Where there are multiple insured individuals provided for under the policy and the fraudulent act is deemed to be isolated to the individual insured in question, the cover relating to other insured persons who remain on the policy shall remain unaffected.

5. You must keep to all the conditions and endorsements of this policy. If you do not, we may not pay your claim.
6. If someone else is responsible, we may take court action in your name to recover any claims we have paid. We will pay for the cost of taking this action and it will be for our benefit.
7. You must tell us as soon as you know of a possible claim under your policy. If we let you use your own contractor, you must let us agree the total cost of repair before the work is started. You may need to pay for this work and claim the cost back from us. You must send us all the documents we need to deal with your claim. You will be responsible for any costs involved in doing this.
8. You must pay us back within one month of asking, any amounts that we have paid which are not covered by this insurance.
9. You must tell us if any claim covered by this policy is also covered by any other insurance or maintenance contract, guarantee or warranty. You must give us full details of the other supplier and we will only pay our fair share of the claim.
10. You must let us check that your boiler and central heating system are in good working order at any time. We will give you as much notice as we can and agree a convenient time to call. If you do not let us inspect your boiler, we may not be able to continue with this policy.

11. The approved contractor may need to gain direct access to a hidden area to trace or resolve a problem. This may mean, for example, lifting carpets, floorboards or patios, or removing tiles or plaster from walls in your home. You will need to agree to this work being done before we can continue with your claim. If you prefer, you can instead ask and pay for someone else to gain direct access. The approved contractor will return to deal with your claim once this has been done.
