We’ve tried to summarise what we believe to be the key terms, but they’re all important and you may have a different view of what is most significant to you. That’s why it’s important you read our full terms and conditions and let us know if you have any questions. We’ll send updated copies at least once every 12 months, but you can ask for a copy at any time by contacting us on 0333 200 5100 or going to edfenergy.com/tariff-info. Your full Insurance Policy documents will be sent to you by the Provider separately.

CHARGES
Your energy prices and the date your tariff ends are set out in your Tariff Information Label. These won’t change until the date your Easy Online+BoilerCare tariff ends or your payment type changes. You can end this contract at any time by giving us notice. However, you may need to pay an exit fee of £30 per fuel if this contract is ended more than three months before its end date – either by us in accordance with these terms, or by you leaving the tariff, changing supplier or moving home without taking the tariff with you.

If you don’t pay in line with your payment method your contract may end or change. This could result in a change to your payment method or charges (or both). You’ll get at least seven working days’ notice of this. If we make any other change which is to your disadvantage, we’ll tell you and give you the chance to change supplier. We’ll explain what you need to do and when, at the time. You are ultimately responsible for any charges incurred in accordance with these terms.

DIRECT DEBIT AND PAYMENT METHOD
As you pay for your energy by Direct Debit, we need to agree the fixed amount you need to pay at first to cover your yearly energy costs. We’ll then review this amount every 12 months. We might carry out more frequent reviews, but this isn’t guaranteed. Unless we decide that it’s necessary to do so, we won’t alter your Direct Debit at the point you make any extra ‘one-off’ payments or when you change your tariff, but at each review we will take account of one-off payments you have made and changes to your tariff rate.

We review your Direct Debit payments in line with our Direct Debit rules, which form part of these terms. You can find them at edfenergy.com/directdebitrules.

PAY AS YOU GO RULES
Pay as you go is a quick and easy way to pay for your energy and the smart way to budget and keep track of your energy and is exclusive to customers with a smart meter. Pay on the app, online, in-store or over the phone. If you choose pay as you go as your payment method, this will operate in accordance with our ‘Pay As You Go Explained’ leaflet, which is available at edfenergy.com/paypolicy. Pay as you go contains additional functionality including auto top up and low balance alert. For more information on how these functions work please visit edfenergy.com/paypolicy.

EASY ONLINE+BOILERCARE
To benefit from the Easy Online+BoilerCare tariff you agree to receive both gas and electricity from us and pay for your energy your energy and insurance premiums by Direct Debit.

We cannot offer any advice about the insurance package and you will need to decide for yourself whether or not it meets your needs. If you already have boiler breakdown cover you should compare benefits before signing up to this offer. The Principal Terms of the insurance cover are:

1. You agree to taking out an annual BoilerCare cover policy with our insurance partner Intana for which you will get 50% off the usual cost of Boilercare insurance (Usual cost: £9 per month, £108 per annum. With 50% off: £4.50 per month, £54 per annum).
2. Your energy contract 14 day cooling off period will have to passed;
3. The transfer of both fuels onto the Easy Online+BoilerCare tariff will need to be complete;
4. You will need to have consented for us to send your bank details to Intana to set up a Direct Debit to enable payments of the insurance cover premium at £4.50 per month for the first year of cover. Intana is the trading name of Collinson Insurance Services Ltd. Payments will show on your bank statement as “Collinson Insurance Services Ltd” or “CISL”.

• Confirmation of the BoilerCare cover start date will be sent with the policy documents.
• The policy covers the failure/breakdown of your standard domestic mains gas boiler, standard radiators, controls and thermostats.
• It provides cover for up to 3 claims a year, and a maximum of £500 per claim. If you need to claim, you will have to pay the first £50 of each claim.
• With BoilerCare cover, it doesn’t matter how old your boiler is, as long as it is in good working order, has had a regular service and spare parts are still available.
• The policy is underwritten by Great Lakes Insurance SE, UK Branch and administered by our insurance provider Collinson Insurance Services Ltd, trading as Intana.
• Your insurance documents will be sent to you by email in accordance with the tariff Terms and Conditions. If you would prefer to receive a paper copy, please call Intana Customer Services on 01444 442667.

If you wish, you may also cancel the insurance policy at any time. Cancellation of your insurance policy will not affect your energy prices or energy tariff and no refunds will be made.

Your consent for us to send your bank account details to Intana means that we will share your name, address, bank account number and sort code with Intana to set up a direct debit for you to pay £4.50 per month for the annual cover in the first year. A direct debit guarantee and Insurance Schedule to advise the payments of £4.50 per month will be sent to you from Intana, together with your policy documents. The insurance schedule will also advise the date that payments will be charged to your bank account. You may cancel the policy and payments within the 14 day cooling off period at that time. After the first year you’ll be sent an insurance renewal reminder which will confirm the cost of the full monthly premiums in the second year of cover and you will be auto-renewed onto the cover unless you cancel the second year of cover within the 14 day cooling off period at that time.

There are other terms and conditions that apply to the insurance and these will be sent to you once your cover has been set up and can also be seen below within the policy terms and conditions attached to these Principal Terms. By signing up to this tariff you confirm you have read, understand and accept Intana’s terms and conditions, including that your ability to access the insurance offer policy as part of this energy tariff is conditional upon meeting any eligibility criteria set out in Intana’s terms and conditions.

You will receive your full insurance policy documents and certificate from Intana within 30 days of your 14 day cooling off period ending. If you haven’t received your documents within this time-frame or if you have any questions relating to this, please call us on 0333 200 5100.

Signing up to this tariff means you also agree to:
• Manage your account entirely online
• Provide a valid email address and register for MyAccount
• Receive your bills, account information and updates electronically
• If you do not have a smart meter you agree to have one fitted, or, if you decide you don’t want one installed, you can opt out by letting us know
• Have both your electricity and gas supplied by EDF Energy

DIRECT DEBIT RULES
Direct Debit is an easy way to pay for your energy and helps you budget for your bills. It’s good value too – because you’ll benefit from a lower unit rate for your energy.

BUDGET DIRECT DEBIT
To pay using our Budget Direct Debit plan we first need to agree a fixed amount to cover your energy costs.

HOW WE CALCULATE YOUR DIRECT DEBIT
We estimate how much we think you’ll spend on your energy over the coming year based on information we have in our records, such as your previous energy usage and your type of property. When it’s time for your Direct Debit review, we also take into account any balance on your account. We then divide this annual cost into 12 monthly payments, which are spread equally across the year. This means that you won’t end up paying more in winter or less in summer – just the same amount all year round.

HOW BUDGET DIRECT DEBIT REVIEWS WORK
We review your Direct Debit every 12 months. We might carry out more frequent reviews, for example if we receive a meter reading, but this isn’t guaranteed. Unless we decide that it’s necessary to do so, we won’t alter the amount you pay by Direct Debit at the time you make any extra ‘one-off’ payments or when you change your tariff, but at each review we will take account of one-off payments you have made and changes to your tariff rate.
WHY YOUR DIRECT DEBIT AMOUNT MIGHT CHANGE

After we’ve completed the annual review, if your Direct Debit needs to increase or reduce to cover your estimated annual energy cost, we’ll let you know and make the necessary changes. To avoid your agreed payments changing too often, we’ll only alter them between annual Direct Debit reviews if we think your payments need to change by more than 10% to cover your total energy costs for the year. Latest details can be found at edfenergy.com/directdebit

HOW ANY DEBIT OR CREDIT IS BALANCED OUT

Once we’ve completed your review, if we have an up to date meter reading and we find your account is in credit or in debit, we’ll usually update your monthly payment amount to spread the balance across the following 12 payments. In exceptional circumstances we may collect the full debt amount you owe from your account. In these cases we’ll try to get in touch at least 12 working days beforehand.

IF YOU WANT TO PAY YOUR AMOUNT IN FULL DIRECT DEBIT WHOLE AMOUNT EVERY MONDAY OR EVERY THREE MONTHS – HOW IT WORKS

• Every month/three months you’ll get a reminder from us asking you to read your meter or pay your regular payment amount.
• If you have a valid meter reading by the date we ask you to, we’ll use this to send you a bill for the amount we’ll collect from your account for that month or three months. So you can be sure you’re paying for your actual use.
• We’ll also check your regular payment amount to make sure it’s set correctly and that you’re not paying too much or too little.
• If you don’t give us a reading, we’ll ask you to pay a ‘regular payment amount’ which we work out by calculating how much energy we expect you to use in a year and dividing this into 12 equal payments. We look at any meter readings you’ve sent us or we’ve taken for you – if a meter reader visits your property for example. If you have less than two meter readings for your account, we will look at the size of your home and try to make sure you’re paying for the correct amount.
• If you change your tariff, we’ll check that your regular payment amount is set correctly.
• If you don’t send us a meter reading, we’ll collect the amount shown on the regular payment amount.
• You can give us meter readings online through MyAccount or the EDF Energy app, any time you like.

1. Introduction

1.1 This is a contract for us to supply energy to you. By entering into it you agree to keep to its terms. Please read it carefully so you understand your responsibilities. The standards we must meet in supplying energy to you, and the compensation arrangements that apply if we fail to meet these, are set out in the Standards of Performance booklet.

1.2 You are responsible for making sure your premises are connected to the national grid. If they’re not currently connected, please contact our live chat team by visiting edfenergy.com/myaccount.

1.3 Our responsibility to supply your premises (and your responsibility to pay for the supply) begins on the supply start date. From this date and for as long as we’re the registered supplier, all energy that passes through your meter or which is supplied to the premises will be treated as being supplied under this contract, even if you have a contract with any other
person.

1.4 This contract continues until it is ended in line with clause 7. After this time, if you want to receive a further supply, you will need to enter into a new contract with us. Any supply made during any period where there is no contract between us will be governed by our ‘deemed terms of supply’ published in our Tariff Information Label (see ‘Exceptions’) (applies in which case we’ll contact you to deal with the issue as soon as possible).

2. Access

2.1 You agree to give us, our contractors or any person we tell you about, safe, full, free and unrestricted access to your premises and all metering equipment and other fittings used in connection with supplying your premises. If obstructions prevent access, you must remove them and pay any costs involved. We may also charge you if you don’t let us know at least 48 hours beforehand if access won’t be available at the time of a booked appointment.

2.2 You are responsible for all pipes, equipment, wires and cabling used to connect with supplying energy on your side of the meter and their maintenance and safe condition. (Your side of the meter starts at the point energy leaves your meter unless you agreed, it, and includes your home wiring). Any energy losses that happen on your side of the meter are your responsibility. If you ask for a meter inspection at your premises, we may charge you.

2.3 You must make sure that your premises have a suitable meter installed that meets relevant industry standards for safety, accuracy and reliability and which is capable of providing all the information we need to provide and measure energy in line with the type of tariff you have chosen. If the premises do not have a satisfactory meter installed or the meter is not in a suitable place, we may replace, reposition or reprogramme it (for which we may charge you) or we may refuse to supply you in that area that is not suitable for you (which may affect your prices). We will not be responsible for any fault relating to metering equipment that has not been provided on our behalf. You should call us if you are not sure if your metering equipment is appropriate.

2.4 If you have a ‘smart meter’ that we can read without coming to your premises, you agree that:
(a) it and the in-home display unit must not be removed from the premises without our permission;
(b) we may use it to remotely monitor the energy you use;
(c) we may remotely repair and update it, switch it from credit to prepayment or disconnect your supply (or both);
(d) we may use information from it to work out your bill, offer you appropriate tariffs and other products (including via any associated in-home display device) and for any other purposes in line with the information policy; and
(e) from time to time the information from your smart meter may not correctly reflect the energy you have used. In such cases, we reserve the right to apply the correct charges which will be applied to your smart meter or reflected in a separate bill.

2.5 You must make sure that all metering equipment is not damaged, stolen or lost and is kept in safe condition. You must tell us immediately if there is any damage or fault to the metering equipment. We may not be liable for any fault relating to metering equipment (including any call-out charges), unless the loss or damage is caused by our own negligence or failure to do so.

2.6 If your contract ends, we may recover any metering equipment we have provided to you and you will give us, our contractors or any person we tell you about, access to the meter.

3. Energy price, tariff features and charges

3.1 You agree to pay all charges due under this contract which are not genuinely disputed, even if the charges are based on an estimate of your energy use.

3.2 Any customer who has signed up to be supplied by EDF Energy on the Easy Online+BoilerCare tariff, and has agreed to transfer of bank details to our insurance provider Intana to set up a Direct Debit for monthly insurance payments, will be provided with 50% off BoilerCare cover for 1 year. This applies to one household only.

3.3 You agree to have both your gas and electricity on this tariff, and Direct Debit. You can end this contract at any time by giving us notice. However you may need to pay an exit fee of £30 per fuel if this contract is ended more than three months before its end date – either by us in accordance with these terms, or by leaving the tariff, changing supplier or moving home without taking the tariff with you. Signing up to this tariff means you also agree to:
(a) signing up to this tariff means you also agree to:
   • Manage your account entirely online
   • Provide a valid email address and register for MyAccount
   • Receive your bills, account information and updates electronically
   • If you do not have a smart meter you agree to have one. If you don’t have a smart meter installed, you can opt out by letting us know
   • Have both your electricity and gas supplied by EDF Energy

3.4 We may at any time (except if you are supplied through a prepayment meter or if it is otherwise not reasonable), ask you for a reasonable deposit (or other form of security) towards the charges (a ‘security deposit’). If you don’t provide this, we may give you notice to end this contract in line with clause 7. If we decide a security deposit is no longer needed, we may use it to pay off any debt you owe us.

3.5 We can charge you any reasonable costs and expenses we have to pay in carrying out our responsibilities and for any reasonable costs associated with distributors’ services, recovering money you owe, and disconnecting, reconnecting and settling your supply.

3.6 You can ask for up-to-date information on our tariffs and charges which apply, and any other charges we might make for other services. To do this contact our live chat team by visiting edfenergy.com/live-chat or contact edfenergy.com/adding-charges

3.7 Smart meters automatically send us your meter readings, meaning that you no longer have to ‘take your meter readings’ and any reading that has not been provided on our behalf. If you think your meter isn’t showing the right amount, you can contact us and we will check it.

3.8 The charges for your Easy Online+BoilerCare tariff are set out in your Tariff Information Label which you should keep safe with your contract letter. The charges which apply to you depend on your supply area, the type of your meter, payment method and decisions you have made.

3.9 Except for a change in law, regulation, tax or duty which affects us in a way that is beyond our reasonable control, or the introduction of a new tax, duty, charge or fee which is not allowed to recover from you through your energy bill (or bills), the prices and terms and conditions for your Easy Online+BoilerCare tariff will not change until the end of the period.

3.10 If you’re already an EDF Energy customer and are switching to another tariff, we can offer you appropriate tariffs and other products (or both).

4. Changes to terms

4.1 If you choose to switch to another tariff, we can end your current contract and change your tariffs from your current prices until your transfer to your new tariff takes place (a ‘tariff extension’). We won’t apply a tariff extension if you haven’t had your meter for 18 days or more on your energy account. If you try to change supplier but have outstanding charges on your energy account, we may contact your supplier to tell them to prevent the transfer until you pay off what you owe. If you pay those outstanding charges within 30 working days of our notice objecting to the transfer, we won’t charge you and we won’t apply the change during the transfer period.

Our right to change terms

4.5 You are allowed to change all terms of supply at any time, as long as the change is not to your disadvantage. Any changes will apply from the date we publish them on our website. If you don’t pay for your energy as agreed, we may take action to recover money you owe, and disconnect, reconnect, or settle your supply.

4.6 To do any of the above you need to ask us. If you do, the changes will apply once we have processed your request. Your changes may change as a result, and you agree that we may tell you if we can’t (for example, if we change your supply area). If you decide to do this, you must tell us which fuels you want us to supply at your new premises so that we can apply to become the registered supplier for those fuels.

5. Billing

5.1 We will give you a bill or statement at least once a year, but we may send you a bill or statement at any time, or in line with your preferred communication preferences. We will charge you for your energy usage based on the amount of energy we reasonably consider that you have consumed, using the method which we estimate you have consumed in accordance with paragraph 5.2 below) for the period covered by your bill, up to a maximum period of twelve months except where the charges relate to circumstances where:
(a) we have previously taken steps to recover payment for charges which are older than this.

5.2 Your energy bill will include your energy usage and the cost of your energy consumption. The bill will show the energy we reasonably consider that you have consumed during the period covered by your bill, up to a maximum period of twelve months except where the charges relate to circumstances where:
(a) we have previously taken steps to recover payment for charges which are older than this.
b) we have not taken action to recover such older charges because of any act or omission on your part, or

c) any other circumstance applies which our regulator confirms that we may seek to recover charges relating to consumption that is older than twelve months.

5.1b Because we only permitted to bill you for energy in accordance with clause 5.1, it is very important that we receive accurate and up to date information about your energy use at least once per year, and so you must:

(a) allow any meter reader or other EDF Energy representative free and unimpeded access to read your electricity meter at your premises, at least once per year (provided that we may choose not to schedule visits this frequently);

(b) if you have a smart meter, allowing us to use it to take regular meter readings;

(c) tell us if you have moved into a new premises and are taking a supply from us;

(dimaking sure you have arranged to pay us;

(e) letting us know if you are not receiving bills at least once a year;

(f) telling us if you think there is a problem with your meter;

(g) if you have a prepayment meter, making sure you only use the key or card we have issued to you to top it up;

(h) if you are not able to take any of the steps set out above, contacting us to agree alternative arrangements for complying with those.

Where you have opted for electronic communications from us, or this is a requirement of the product, you will still have to provide us with an accurate email address, and to let us know if this needs to be updated. By entering this contract you acknowledge and agree that failing to take one of the actions listed in this clause will obstruct us in trying to correctly charge you for the energy you use, and you agree that doing so would be manifestly unreasonable. Where we don’t have an up to date meter reading we will bill you based on an estimated reading using the information that we have available about your home and household energy use at the time to help us to improve the accuracy of your bills please provide us with an up to date and accurate meter reading at least once per year.

5.2 We have the right to estimate your usage if we do not have all the information we need (including the energy you have used during any period) to work out the charges you owe us. We will estimate using information we have about the energy used at the premises. This may take into account adjustments for seasonal changes in use and previous meter readings, or the characteristics of your home and household energy use, or price changes.

5.3 If your meter is not read immediately before the supply start date, or we reasonably believe that the reading we have is not accurate, we may estimate the amount of the balance supplied during the period beginning with the supply start date and ending with either:

(a) the date the meter is first correctly read after the date we start supplying you; or

(b) the date your contract with us ends; whichever is earlier.

6. Payment

6.1 You must pay your bill by the due date on the bill (or in the case of a Direct Debit, is not given within a 14 calendar days of the bill date) using the payment method we have agreed with you.

6.2 If you have a Direct Debit which is still not paid after 28 days or if you fail to keep to any payment method we agree with you, we will treat this as you giving us notice to end your contract with us under clause 7.1.

6.3 We have the right to use or transfer any debts or credits you have on your energy account:

(a) with a previous supplier to us;

(b) with a previous supplier to us; or

(c) for any accounts you have with us to pay off any debt you owe us or our group companies.

6.4 If you are being supplied at premises where Green Deal charges apply, we’ll collect these from you through your energy charge. You may pay your Green Deal charges using the same payment method as you pay for your energy. You cannot choose a different method.

6.5 If you owe us any outstanding charges, and you send us a payment that does not cover these charges, we’ll put it towards whatever debt and in whichever proportions we consider appropriate.

Direct Debits

6.6 As you pay for your energy by Direct Debit, we need to agree the fixed amount you need to pay at first to cover your yearly energy costs. We’ll then review this amount every year to carry out more frequent reviews, but this isn’t guaranteed. Unless we decide that it’s necessary to do so, we won’t alter your Direct Debit at the point you make any extra (‘one-off’) payments for or when you change your tariff, but at each review we will take account of one-off payments you have made and changes to your tariff date.

6.7 Whenever we review your Direct Debit, we’ll estimate the cost of the energy you will use (your estimated annual energy cost) up to the date of the next anniversary of your contract. This will be based on your past energy use, current prices, and any debt or credit on your account. If your Direct Debit needs to be increased by more than a ‘specified (set) percentage’ to cover your estimated yearly energy cost, we’ll let you know and make the charges. To avoid changes that we have reviewed and that would result in a charge of less than or equal to the specified (set) percentage.

6.8 If, on the date we review your Direct Debit your account is in credit or in debt, we’ll usually update your monthly payment amount to spread the balance across the following 12 payments. If your account with us is in debt by more than our specified (set) percentage and we know and take the amount of the debt from your bank account. By choosing to pay by Direct Debit, you agree to these payments and we can find our current specified (set) percentage and specified debt amount, together with more information on paying by Direct Debit online at edfenergy.com/directdebit.

6.9 Apart from where you or we change the way you pay your charges under clause 4.3 or 4.5, if you choose to pay by Direct Debit, you must continue to use that payment method to pay the charges. If you fail to do so, we will write to you, explaining what has happened and giving you a date when you need to re-start your Direct Debit to avoid the issues above. If you fail to do so by this time, we can move you onto the cash/cheque prices for your current tariff. You can find the current cash/cheque prices for your current tariff by viewing the relevant tariff information label at edfenergy.com/tir, or by calling us.

Debt

6.10 If we agree a payment method with you, you must pay charges in line with it. If not, we can withdraw it and all outstanding charges will then be due in full.

6.11 If you don’t pay our bills in the way we’ve agreed, we can ask you to pay by another method and this may increase the price you pay for your energy (see clause 3.3). If this means we fit a prepayment meter, clause 2 will remain responsible for the costs, which we’ll tell you about at the time.

6.12 We have the right to charge you interest if you are late paying any debt you owe us. This will be at a yearly rate of 2% of England bank lending rate at the relevant time. If you fall into debt and we agree with you to pay this debt via an instalment plan, we may pay you to our Cash Cheques prices version.

6.13 If your contract ends and you do not pay the charges due under the contract within 28 days of it ending, we have the right to recover those charges from you (within certain limits set out in our licence). Equally, in line with the same limits, when your contract begins, you have the right to recover any unpaid charges from your contract with them. In these circumstances, you agree that we can collect from you an amount you owe, plus reasonable costs.

7. Ending your contract

7.1 From the day after signing up with us, you have a 14 day cooling-off period during which you can cancel this contract at no cost. You can also end this contract with us at any other time by:

(a) asking another supplier to become your registered supplier; or

(b) giving us notice as set out in clause 7.3. If you do this, you will only pay for your charges for the period we are your registered supplier. If we continue to be your registered supplier after you try to end this contract, unless you agree a different contract, you will move onto our deemed contract scheme.

7.2 If you use your right under clause 4.5(c) and want to stop taking one of the fuels we supply (for example, you go from dual fuel to electricity only), you may do so if:

(a) another supplier becomes your registered supplier for that fuel only; or

(b) your new premises do not receive a supply of that fuel (for example, if your new premises is not connected to the distributor’s system) and you do not arrange for it to be supplied at all. In these cases, this contract will no longer apply to the relevant fuel.

7.3 Unless you use your right under clause 4.5(c), if you change premises you must give us notice so we can end this contract. If not, you’ll still be legally responsible for the charges at the original premises. After you receive notice, we will have two working days to cancel the contract.

7.4 If you use your right under clause 4.5(c) and we are not already the registered supplier for your new premises, our responsibility under clause 7.3 will not end and this contract will be suspended from the date you leave your old premises until the date we become the registered supplier of your new premises. The contract will stay in place while it is suspended, and you will still be responsible for its charges related to energy used at your old premises until a new person takes over that responsibility.

7.5 We can end our arrangements with you under this contract by giving you written notice except if we are acting under clause 7.6, in which case, we do not need to give you any notice.

7.6We are entitled to end this contract immediately in any of the following circumstances.

(a) You do not keep to any of its terms.

(b) You no longer own, rent or use the premises.

(c) You have any form of bankruptcy or insolvency proceedings brought against you.

(d) We reasonably believe that you have stolen energy or deliberately interfered with any metering equipment.

(e) There is a risk of danger to you or others if we continue the supply.

(f) Circumstances beyond our reasonable control mean we are not able to carry out our duties under this contract (for example, anything any other energy supplier, distributor, or other person does or fails to do).

(g) We are no longer licensed as an energy supplier or are asked to stop supplying you by Ofgem or another industry regulator.

(h) You have chosen to pay by Direct Debit but fail to use that payment method and have not changed your payment method under clause 4.5. We have this right even if you don’t have a debt on your account.

(i) Ofgem issues a direction to another supplier telling them to take over the supply to your premises, including in connection with a situation where Ofgem has decided that there has been an event, or a situation has arisen, which means it is allowed to take away our supply licence, and has decided to do so.

(j) If we’re entitled to prevent energy being supplied to you under the contract (including disconnecting your premises), you agree to let us and our agents into your premises at all reasonable times to do this.

7.7 Ending your contract will not affect any rights and responsibilities you or we had before the contract ended, or which are acting under clause 7.6, in which case, we do so if:

(a) switch to one of our other tariffs, as long as your new tariff is available or becomes available within 20 working days of giving you notice. So we’ll let you stay on your Easy Online+BoilerCare tariff prices until your switch goes through; or

(b) if you don’t (a) or (b), we’ll arrange for your...
energy accounts to be automatically transferred on the end date to the most appropriate standard variable or fixed tariff that we have on offer at the time based on your current type of meter and payment method. We’ll include the prices for this tariff when we write to you.

7.11 You can end this contract at any time by giving us notice however you may need to pay an exit fee of £30 per fuel if this contract is ended more than three months before its end date – either by us in accordance with these terms, or by you leaving the tariff, changing supplier or moving home without taking the tariff with you.

8. Limits to our legal responsibilities

8.1 We are only legally responsible to you as set out in these terms and conditions. We have no other duty or legal responsibility to you, and all responsibilities, guarantees and any other conditions implied by law or otherwise will not apply, as far as this is allowed by law.

8.2 We will not be legally responsible to you for any event or circumstance beyond our reasonable control.

8.3 We are not legally responsible to you in any way for any indirect or direct loss of income, business or profits, or for any other loss or damage that could not reasonably have been expected at the time we entered into this contract, other than that caused by us acting fraudulently. Also, we will not be legally responsible to you for any loss you suffer as a result of your responsibilities to any other person (however this is caused).

8.4 If we are legally responsible to you under these terms, except as set out in clause 8.5 below, the maximum amount we will accept responsibility for is £10,000 for all incidents that lead to loss or damage (however it happens).

8.5 Nothing in these terms will exclude our legal responsibility for death or personal injury caused by our negligence or legal responsibility resulting from us failing to carry out our legal duties under Part 1 of the Consumer Protection Act 1987 or for fraud.

8.6 This clause applies even after this contract has ended. As far as it excludes or limits our legal responsibility, it takes priority over any other contract term.

9. Other conditions that apply

9.1 We can transfer all or any of our rights and legal responsibilities under your contract without your permission by giving you written notice (unless we are acting under clause 7.6, in which case we do not need to give you any notice).

9.2 If we end this contract apply only to you and cannot be transferred to any other person without our written permission.

9.3 If we don’t enforce any part of this contract at any time, this will not stop us from doing so in the future.

9.4 To help us improve quality, we may monitor and record calls that you or we make in relation to customer services and telemarketing.

9.5 If you need to give us notice under this contract, you must follow our instructions in any related communications on how to provide that notice. You may communicate any general notices to us in writing to the address shown on your contract, by email to CP@edefenergy.com or by contacting our live chat team at edfenergy.com/myaccount.

9.6 As part of this contract, you confirmed to receive bills, notices and communications from us online or by email. We have set up your account so that all bills, notices and other communications we send you under our supply licence are provided to you electronically through our MyAccount service, or if appropriate by email. These could include notices relating to: price changes, information about tariffs coming to an end, responses to complaints or questions, and other information about our legal responsibilities to you. It will also include bills, annual statements, and initial reminders about any outstanding debt on your account. We may still send you any of these things by post if we decide it is appropriate to do so.

9.7 These terms and conditions, the contract letter and any other documents we refer to make up the whole contract for the service between you and us.

9.8 We will not break any term of this contract by acting in line with any rights or carrying out any duties under our supply licences or any other relevant industry agreements or laws.

9.9 Nothing in this contract affects our rights under our energy-supply licences or other relevant laws.

9.10 If any term of this contract is found not to be valid or cannot be enforced in full or in part, the rest of the contract will continue to apply as normal.

9.11 The laws of England apply to each contract with us and any disputes relating to your contract and all non-contractual disputes which relate to the services may only be heard in the English courts.

If your boiler or central heating system or controls break down, we will pay up to £500 to cover the necessary repair or replacement of:
• any standard part that:
  - is fitted inside the boiler casing;
  - the manufacturer of the boiler has supplied; and
  - is designed to be used during the normal use of the boiler.
• any condensate pipe.
• frost and room thermostats.
• programmers.
• motorised or selector valves.
• time controls.
• single water circulating pump.
• standard radiators up to 1.5 metres (5 feet) long if they are leaking.
• radiator valves.
• above ground internal pipe work (as long as it can be accessed easily and is not inside the fabric of the building).
• a single, standard hot water cylinder as long as it is not bigger than 90 centimetres by 45 centimetres (36 inches by 18 inches), but not any insulation jacket or immersion heaters.
• expansion tanks.
What is not covered

We will not cover:
• the excess shown in your certificate.
• more than 3 breakdowns in any period of insurance, covering up to £1500 per policy year.
• more than £500 (including all parts, labour, call out charges and VAT) for any one claim.
• any breakdown where the boiler and/or controls have not been properly installed, repaired or have been altered (e.g. where the wrong parts have been fitted) or does not meet current gas safe regulations.
• clearing air locks, unblocking pipes or correcting poor circulation or balancing radiators.
• any boiler or system noise.
• warm air units, oil fired boilers, LPG or gas cookers, or gas fires.
• routine or regular maintenance that you are responsible for. This includes venting or bleeding radiators, turning the boiler off, ensuring radiator valves do not stick, lighting pilot lights and changing time switches.
• adjusting the water pressure on a sealed central heating system.
• the cost of and/or repair caused by rust, scale, hard water scale, corrosive water, water with a high chemical content if we have told you on a previous visit that permanent repairs, improvements or a PowerFlush (or similar cleaning procedure) is needed.
• the cost of draining your system unless there is a suitable isolation and drainage point fitted.

• fuel lines to the boiler. This includes gas leaks between the gas meter and boiler.
• the cost of refilling your system with any additives (e.g. corrosion inhibitors).

• the repair or replacement of parts that have failed because the manufacturer’s operating instructions were not followed.
• the replacement of any parts that have not broken down.
• anything mentioned in the general exclusions.

How we will deal with your claim

Please also refer to the Section “What to do if you need to make a claim”. When you call us, we will arrange for an approved contractor to assess the situation to:
• identify the cause of the breakdown; and
• carry out the necessary repairs to your boiler.

How much will we pay

We will pay for all:
• call out charges;
• labour; and
• covered parts.

Beyond economic repair

Where your boiler is deemed beyond economic repair, we will pay a contribution towards the cost of a new boiler being installed. Once you send us an invoice from a qualified Gas Safe Contractor upon installation of a new boiler, we will pay a contribution of £500, less any premium outstanding to us.

A boiler can be uneconomical to repair for a number of reasons. These include:
• The cost of parts (including VAT) to repair the main heating system is greater than 85% of the manufacturer’s current retail price of a replacement or a similar model.
• It would cost more to repair the boiler than to replace it with a new one; or
• New, genuine parts are no longer available to our suppliers; or
• The type of fault which has caused the boiler to fail and the extent of the repairs which will be required to fix it; or
• Any repair is only expected to result in a temporary fix and other faults are likely to occur shortly afterwards.

Any decision regarding whether or not it is economical to repair your boiler will be made by our contractor, using their knowledge and experience of similar boilers and faults.

You may find another contractor who will be willing to repair your boiler and this is your choice. However, we would not be able to continue to insure your boiler, even if it has been repaired by someone else.

Where you have had a new boiler fitted, we will not be able to keep insuring this as it will be covered by a separate guarantee (provided by the manufacturer or fitter). No refund of any premium that you have paid us will be given.

Servicing Your Boiler

You must make sure that your boiler is serviced regularly as recommended by the manufacturer. This will normally mean making sure your boiler is serviced at least once every year.

What to do if you need to make a claim

If you or your nominated contact finds that you have to claim under this policy, you must call us straight away on the following emergency helpline:

01444 442668

If we cannot help resolve your problem over the phone, we will arrange for an approved contractor to visit you. Please note that you will have to pay any excess shown in your certificate before we can arrange this, so please make sure you have a valid debit or credit card available when you call us.

You must also tell the police as soon as possible about any damage caused by a break in or vandalism.

Major emergencies must be reported to your water, gas or electricity supplier and/or the emergency services.

Major emergencies include emergencies which may:
• result in serious danger to you or anyone else; or
• cause serious damage to your home or another property.

If there is no adult present when our Contractor arrives at your home at the agreed appointment time then you will be charged £20 plus VAT.

What to do if you smell gas

SUSPECTED GAS LEAKS MUST ALWAYS BE REPORTED TO NATIONAL GAS EMERGENCY SERVICE ON 0800 111 999.

GOOD TO KNOW
YOUR PRICES

• The prices shown on your TIL are only available for gas and electricity supplied to continuously lived-in homes which are used wholly or mainly for domestic purposes. They’re also based on you having the meter type shown on your TIL. If you have a different meter type then different prices may apply, or you may not be eligible for this tariff. We’ll be in touch if we find this is the case.

• Standing charges are due per day and per meter whether or not you use any electricity or gas at your premises as supplied by EDF Energy.

• Some prices have been rounded and in some instances more decimals may be shown on your bill. VAT is charged at 5%. This is the current rate for residential energy supplies.

• For customers on variable tariffs such as Standard (Variable), if there is an increase in prices or a change to your tariff terms and conditions, we’ll write to you in advance to let you know. Any changes will be shown on your bill for the period in which the change has effect. Old prices or terms and conditions will apply up to the date of the change, and new ones from the date the change is effective.

• If you’re a current EDF Energy customer, you’ll continue to be supplied on your existing tariff until we have processed your transfer.

YOUR PERSONAL PROJECTION

Your personal projection is a projection of your next year’s cost and was provided when you signed up with us. It is based on the information you gave us at the time.

Your quote would have been sent to you by email or letter when you signed up. You can find your personal projection in your quote.

You can compare your personal projection for your current tariff with a personal projection given to you for an alternative tariff from us, an alternative supplier or a switching site.

OUR FUEL MIX

Every year we must publish details of the fuel sources that have been used to generate the electricity we supply to our customers. The information in the table below covers our supply licence for EDF Energy Customers Ltd for the period from April 2017 to March 2018. Our customers’ electricity is sourced from our own UK power stations, the wholesale energy market and other independent power generators. We are a major supporter of independent renewable generators.

The figures for UK average fuel mix are provided by the Department for Business, Energy & Industrial Strategy (BEIS). Depending on the tariff you are on, the fuel source and carbon emissions associated with the generation of your electricity may vary.
For more information on our fuel mix, visit edfenergy.com/fuelmix The low-carbon electricity that we buy for Blue or Renewable tariffs and products is supplied into the National Grid. Customers receive that electricity through the National Grid, not directly from low-carbon generators.
