

# Workplace Charging Scheme (WCS)

- WCS is a voucher-based scheme designed to provide eligible applicants with support towards the upfront costs of the purchase and installation of EV chargepoints. The contribution is limited to the 75% of purchase and installation costs, up to a maximum of £500 for each socket, up to a maximum of 20 across all sites for each applicant.
- Workplaces can apply for vouchers using the Workplace Charging Scheme application form below: <https://www.apply-workplace-chargepoint-grant.service.gov.uk/>
- If eligibility checks are successful, applicants will be issued with a unique identification voucher code, either immediately or within 5 working days, via email, which can then be given to the OLEV-authorised WCS installer.
- The voucher will be valid for four months (120 days) from the date of issue. Once the chargepoint(s) have been installed, the authorised installer will claim the grant from OLEV on the applicant's behalf through an online installer portal.
- An applicant can apply for subsequent vouchers for additional chargepoints and sites, as long as their cumulative total does not exceed 20 sockets.
